Fax something interesting toll free to 1-888-877-1655 or 1-503-200-1300

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1-888-877-1655 (your boss will never notice... maybe) or 1-503-200-1300 (long distance to Portland, Oregon) and it should appear here within a couple of minutes. (It's a toll-free number if you're in the USA.) Keep it clean & legal.

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

SI B 11 04 03
Engine

July 2005
Technical Service

This Service Information bulletin supersedes SI 11 04 03 dated July 2004.

[redacted] designates changes to this revision

SUBJECT
[redacted] Recurring Noise Complaints From Mechanical Alternator Belt Tensioners

MODEL
E39 5 Series and E36 Z3 with M54 engine through end of production

E60 5 Series and E85 Z4 with the M54 engine through current production

E53 X5 through with the M54 engine through 06/04 production

E46 3 Series with the M54 engine through 5/04 production

[redacted] SITUATION
In certain instances, vehicles with mechanical alternator belt tensioners, that were previously replaced for a noise complaint, return to the workshop with a similar complaint.

CORRECTION
[redacted] On a customer complaint basis, after the original mechanical belt tensioner in the vehicle has failed, replace only with the hydraulic style tensioner and install a new Ribbed V-Belt

PROCEDURE
Perform preliminary alternator drive belt replacement steps as outlined in TIS repair instructions 11 28 0 01.

Relieve tension on the drive belt by rotating tensioner (5) in a clockwise direction. Remove alternator drive belt (7).

Remove bolt (2) and upper deflection pulley (3) and

Deductions and Adjustments Worksheet

Note: Use this worksheet only if you plan to itemize deductions, claim certain credits, or make adjustments to income.

1 Enter the amount of your 2020 medical and dental expenses. Before you begin, you may want to review the instructions for this worksheet to see if you can include certain expenses. Generally, you can include only the amount of your expenses that you paid for yourself, your spouse, and your dependents that is more than 7.5% of your income. Be sure to include your health insurance premiums (if not deducted from your pay on a pre-tax basis), prescription medicines and insulin, and payments you made for long-term care. But don't include expenses reimbursed or paid by others. For more information, see Medical and Dental Expenses in chapter 21 of Pub. 17. 1 $

$ 1,450 if married filing jointly or qualifying widow(er)

2 Enter: $ 996 if head of household

$ 725 if single or married filing separately 2 $

3 Subtract line 2 from line 1. If zero or less, enter -0- 3 $

4 If you filled out a Deductions and Adjustments Worksheet in an earlier year, see the worksheet in that year to find out if you can claim any additional amount for casualty or theft losses or other deductions. If you can't, enter -0- 4 $

5 Add lines 3 and 4. Enter the total. Include any amount for certain investment interest expense reported to you on Schedule K-1 (Form 1065). See the worksheet in Pub. 550 for details 5 $

6 Enter the estimate of your 2020 charitable contributions that you plan to itemize on Schedule A (Form 1040). If you don't plan to itemize deductions, enter -0- 6 $

7 Add lines 5 and 6. Enter the total here and on line 1 of the Deductions and Adjustments Worksheet in this publication 7 $

8 Enter the total from Form 8396, line 11, if you claimed the mortgage interest credit 8 $

9 Enter the total of any amounts you paid in 2020 that you included in the total on line 1 of your Deductions and Adjustments Worksheet in this publication. Don't include any amounts you paid with tax-free distributions from your IRA or other retirement plan 9 $

10 Add lines 8 and 9. Enter the total here and on line 2 of the Deductions and Adjustments Worksheet in this publication 10 $

Two-Earners/Multiple Jobs Worksheet (See Two earners or multiple jobs on page 1.)

Note: Use this worksheet only if the instructions under line 4 on page 1 direct you here.

1 Enter the number from line H, page 1 (or from line G if you didn't use the Deductions and Adjustments Worksheet) 1

2 Find the number in Table 1 below that applies to the LOWEST paying job and enter it here. However, if you're married filing jointly and wish to divide your pay using Table 1-4, you must enter the number from Table 1-4 2

3 If line 1 is more than or equal to line 2, subtract line 2 from line 1. Enter the result here. If zero, enter -0- and on line 4, page 1, enter "2" if you checked the "Two jobs" box, or enter "1" if you didn't check the box 3

Note: If you have more than one job and the amount on line 1 is less than the amount on line 2, you should have enough withholding. To be sure, you may want to use the Tax Withholding Estimator at IRS.gov/W4App. If you prefer, you can use the worksheets in Pub. 505 to figure the additional withholding amount necessary to avoid owing tax at the end of the year.

4 Enter the number from line G of the worksheet 4

5 Enter the number from line 1 of the worksheet 5

6 Multiply line 5 by line 4 6

7 Find the amount in Table 2 below that applies to the HIGHEST paying job and enter it here 7 $

8 Multiply line 7 by line 4 and enter the result here. This is the additional annual withholding needed 8 $

9 Divide line 8 by the number of pay periods remaining in 2020. For example, divide by 26 if you're paid every other week and you complete this worksheet in December 2020. Enter the result here and on line 6 of page 1. This is the additional amount to be withheld from each paycheck 9 $

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts formatting colours and graphics of any source document regardless of the application and platform used to create it

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing

- ***Anyone, anywhere*** can open a PDF file All you need is the free Adobe Acrobat Reader Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts software, and operating systems Fonts and graphics are not lost due to platform, software and version incompatibilities
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Mr Hansen

Thanks you for considering [illegible] for the interior office landscaping in your new divisional headquarters. We are pleased to submit our draft proposal herewith for the concept phase as agreed earlier

Since your available area is somewhat limited we suggest a modular layout. This concept emphasizes space conservation and yet still provides for a modern pleasing atmosphere

Enclosed are two floor plans The first one will allow you to keep your present furniture The second was designed with the intention that our new space-saving modules be used. Notice that the latter will provide for more spacious accommodations and/or room for additional personnel Also included are the specification sheets on these products.

After you have had a chance to study our ideas, I would like to set up a meeting during October to discuss any further refinements I will have my secretary make the arrangements Please call me in the interim if you have any questions

INSTRUCTIONS FOR COMPLETING FORM G-4

Enter your full name, address and social security number at boxes 1a through 2b.

Line 3 Write the number of allowances you are claiming in the brackets beside your marital status.

A. Single - enter 1 if you are claiming yourself
B. Married Filing Joint, both spouses working - enter 1 if you claim yourself or 2 if you claim yourself and your spouse
C. Married Filing Joint, one spouse working - enter 1 if you claim yourself or 2 if you claim yourself and your spouse
D. Married Filing Separate - enter 1 if you claim yourself or 2 if you claim yourself and your spouse
E. Head of Household - enter 1 if you claim yourself but the individual(s) for whom you maintain a home does not qualify as a dependent or 2 if you claim yourself and a qualified dependent for whom you maintain a home

Do not claim a deduction on Line 4 for a dependent used to qualify you as Head of Household.

Line 4 Enter the number of dependent allowances you are entitled to claim.

Line 5 Complete the worksheet on Form G-4 if you claim additional allowances. Enter the number on Line H here.

Failure to complete and submit the worksheet will result in automatic denial of your claim.

Line 6 Enter a specific dollar amount that you authorize your employer to withhold in addition to the tax withheld based on your marital status and number of allowances

Line 7 Enter the letter of your marital status from Line 3. Enter total of the numbers on Lines 3 - 5

Line 8.

a) Check the first box if you qualify to claim exempt from withholding. You can claim exempt if you filed a Georgia income tax return last year and the amount on Line 4 of Form 500EZ or Line 16 of Form 500 was zero and you expect to file a Georgia tax return this year and will not have a tax liability. You can not claim exempt if you did not file a Georgia income tax return for the previous tax year. **Receiving a refund in the previous tax year does not qualify you to claim exempt.**

EXAMPLES: Your employer withheld $500 of Georgia income tax from your wages. The amount on Line 4 of Form 500EZ (or Line 16 of Form 500) was $100. Your tax liability is the amount on Line 4 (or Line 16) therefore, you do not qualify to claim exempt.

Your employer withheld $500 of Georgia income tax from your wages. The income on Line 4 of Form 500EZ (or Line 16 of Form 500) was $0 (zero). Your tax liability is the amount on Line 4 (or Line 16) and you filed a prior year income tax return, therefore, you qualify to claim exempt.

b) Check the second box if you are not subject to Georgia withholding and meet the conditions set forth under the Servicemembers Civil Relief Act, as amended by the Military Spouses Residency Relief Act. Under the Act, a spouse of a servicemember may be exempt from Georgia income tax on income from services performed in Georgia if:

1. The servicemember is present in Georgia in compliance with military orders
2. The spouse is in Georgia solely to be with the servicemember
3. The spouse maintains domicile in another state, and
4. The domicile of the spouse is the same as the domicile of the servicemember

Additional information for employers regarding the Military Spouses Residency Relief Act

1. On the W-2 for 2009, the employer should report all wages earned during the year as Georgia wages. On the W-2 for 2010 and any year thereafter, the employer should not report any of the wages as Georgia wages on the W-2.
2. If the spouse of a servicemember is entitled to the protection of the Military Spouses Residency Relief Act in another state and files a withholding exemption form in such other state, the spouse is required to submit a Georgia Form G-4 so that withholding will occur as is required by Georgia Law when a Georgia domiciliary works in another state and withholding is not required by such other state. If the spouse does not fill out the form, the employer shall withhold Georgia income tax as if the spouse is single with zero allowances.

Do not complete Lines 3 - 7 if claiming exempt.

O.C.G.A. § 48-7-102 requires you to complete and submit Form G-4 to your employer in order to have tax withheld from your wages. By correctly completing this form, you can adjust the income of tax withheld to meet your tax liability. Failure to submit a properly completed Form G-4 will result in your employer withholding tax at though you are single with zero allowances.

Employers are required to mail any Form G-4 claiming more than 14 allowances or exempt from withholding to the Georgia Department of Revenue for approval. Employers will honor the properly completed form as submitted pending notification from the Withholding Tax Unit. Upon approval, such forms remain in effect until changed or until February 15 of the following year. Employers who know that a G-4 is erroneous should not honor the form and should withhold as if the employee is single claiming zero allowances until a corrected form has been received.

Business Plan Checklist

Your business plan should contain the following sections

- Executive Summary
- Mission Statements
- Company Objectives
- Personal Evaluation of the Business Owner
- Description of Services and Products
- Company Overview (A Review of Location, Personnel, and Resources)
- Market Analysis (A Review of the Business Niche and Competitors)
- Advertising and Marketing Summaries
- Financial Projections (Start-Up Costs and Profit/Loss Statements for at least the first two years of business)

Questions to Ask Yourself

1. When your business closes down, how are you going to divide up the assets? Do you want to pass your business on to someone? Do you want to sell your business?
2. How are you going to let go of your office? Do you want to dispose of it entirely, or do you want to perhaps hold on to it and secure rent from it?
3. What are you going to do about your clients when you decide to close down your business? Are you prepared to help them find another Web design company that will be able to meet their needs?
4. If you decide to offer hosting services, for example, what are you going to do if one of your clients decides to sue you? Are you adequately protected?

Real Time Tranemission

When you are sending a fax the MFC will scan the documents into the memory before sending. Then as soon as the phone line is free the MFC will start dialing and sending.

If the memory is full the MFC will send the document in real time (even if `Real Time TX` is set to `Off`).

Sometimes you may want to send an important document immediately without waiting for memory transmission. You can set `Real Time TX` to `On` for all documents or `Next Fax On` or `Next Fax Off` for the next fax only.

1. If it is not illuminated in green press (Fax)
2. Press **Menu/Set**, **2**, **2**, **5**

   ```
   Setup Send
   5 Real Time TX
   ```

3. To change the setting, press ▲ or ▼ to select `On`, `Next Fax On`, `Next Fax Off` or `Off`.

   Press **Menu/Set**.

Note

In Real Time Transmission the automatic redial feature does not work when using the scanner glass.

Broadcasting

Broadcasting is when the same fax message is automatically sent to more than one fax number. You can include Groups, One-Touch, Speed-Dial numbers and up to 50 manually dialed numbers in the same broadcast.

Press **Menu/Set** between each of the numbers. Use **Search/Speed Dial** to help you choose the numbers easily. (To set up Group dial numbers see *Setting up Groups for Broadcasting* on page 5-3.)

After the broadcast is finished a Broadcast Report will be printed to let you know the results.

1. If it is not illuminated in green press (Fax)
2. Load your document.
3. Enter a number using One-Touch, Speed-Dial, a Group number, Search or manual dialing using the dial pad.

   Press **Menu/Set**.
4. After you have entered all the fax numbers press **Start**.

Test cricket is the longest form of the sport of cricket. Test matches are played between national representative teams with "Test status" as determined by the International Cricket Council (ICC). The two teams of 11 players play a four innings match, which often lasts up to five days. It is generally considered the most complete examination of teams' playing ability and endurance.[1][2][3] The origin of the name, Test stems from the long, gruelling match being a "test" of the relative strength of the two sides.[4]

The first officially recognised Test match began on 15 March 1877, between England and Australia at the Melbourne Cricket Ground (MCG), where Australia won by 45 runs.[5] A Test match to celebrate 100 years of Test cricket was held in Melbourne from 12 to 17 March 1977, in which Australia beat England by 45 runs—the same margin as that first Test.[6]

In October 2012, the International Cricket Council recast the playing conditions for Test matches, permitting day/night Test matches.[7]

Test status[edit]

Test matches are included in first-class cricket. Matches are played between national representative teams with "Test status" as determined by the International Cricket Council. As of December 2014, ten national teams have Test status, the most recently promoted being Bangladesh in 2000. Zimbabwe's Test status was voluntarily suspended, because of poor performances between 2006 and 2011, it returned to competition in August 2011.[8]

In January 2014, during the historic ICC meeting in Dubai, the pathway for new potential test nations was laid out with the winners of the next round of the ICC Intercontinental Cup playing a 5-day match against the bottom rank test nation. If the Associate team defeats the test nation then they could be added as the new test country and be given full membership.

A list of matches, defined as "Tests", was first drawn up by Australian Clarence Moody in the mid-1890s. Representative matches played by simultaneous England touring sides of 1891–92 (in Australia and South Africa) and 1929–30 (in the West Indies and New Zealand) are deemed to have "Test status".

In 1970, a series of five "Test matches" was played in England between England and a 'Rest of the World XI'. These matches, originally scheduled between England and South Africa, were amended after South Africa was suspended from international cricket because of their government's policy of apartheid. Although initially given Test status (and included as Test matches in some record books, including Wisden Cricketers' Almanack), this was later withdrawn and a principle was established that official Test matches can only be between nations. Despite this, in 2005, the ICC ruled that the six-day Super Series match that took place in October 2005 between Australia and a World XI was an official Test match. Some cricket writers and statisticians, including Bill Frindall, ignored the ICC's ruling and excluded the 2005 match from their records. The series of "Test matches" played in Australia between Australia and a World XI in 1971/72 do not have Test status. Kerry Packer World Series Cricket

   If the document is not already in electronic format (for example, if you want to fax a letter that you have on paper), you must scan it to create an electronic version of the document.

   a. On the toolbar, click New Fax.

   b. In the To box, type the recipient's fax number. You can also click the To button to select a recipient from your contacts list.

2. Click the Send button. The document is faxed using the settings that you specified in the Fax Setup Wizard.

SCAN Scan a document or picture. You can save the scanned item as a file on your computer, attach it to an e-mail message, or print it. Windows Fax and Scan supports scanners that are compatible with Windows Image Acquisition (WIA).

To scan a new item

1. Make sure that your scanner is connected to your computer and that you have installed any software that came with the scanner.

   a. Open Windows Fax and Scan.

   b. On the toolbar, click New Scan.

2. Select the type of item you want to scan, and then click Scan.

   To change the settings, click Preview, and then adjust the settings in the Profile box. For more information, see the Help.

FCC Requirements

3. (b) Except as provided in paragraph (c) of this section, the following requirements shall be met by persons who connect customer premises equipment, including wiring, to the telephone network:

   (1) Each connection to a party line subscriber service shall be subject to tariff.

   (2) Each connection to a coin service (including those provided for use with multi-party lines) is prohibited.

   (3) Connection to telephone company provided coin service (including those provided for use with multi-party lines) is prohibited.

   (4) Except for those employed by or under contract with an aggrieved party, no person shall connect any type of automatic dialing equipment to the message toll service (MTS) facilities of any of the Bell Operating Companies.

   (5) Except for those employed by or under contract with an aggrieved party, no person shall connect any type of automatic dialing equipment to the interstate service facilities of any of the Bell Operating Companies.

   (6) Except for those employed by or under contract with an aggrieved party, no person shall connect any type of automatic dialing equipment to the interstate service facilities of any of the Bell Operating Companies.

   (7) Except for those employed by or under contract with an aggrieved party, no person shall connect any type of automatic dialing equipment to the interstate service facilities of any of the Bell Operating Companies.

   (8) Except for those employed by or under contract with an aggrieved party, no person shall connect any type of automatic dialing equipment to the interstate service facilities of any of the Bell Operating Companies.

   (9) Except for those employed by or under contract with an aggrieved party, no person shall connect any type of automatic dialing equipment to the interstate service facilities of any of the Bell Operating Companies.

   (10) Except for those employed by or under contract with an aggrieved party, no person shall connect any type of automatic dialing equipment to the interstate service facilities of any of the Bell Operating Companies.

4. If the telephone company determines that customer equipment, network protocols, interfaces, or communications have the potential to harm the network, the telephone company may require the customer to take corrective action. The telephone company may require that the customer equipment be disconnected if the customer fails to take corrective action or if immediate disconnection is necessary to avoid harm to the network.

5. The telephone company may make changes in its facilities, equipment, operations, or procedures that could affect the operation of customer equipment. If the changes are expected to affect the use or performance of the customer's equipment, the telephone company must give the customer adequate notice, in writing, to allow the customer to maintain uninterrupted service.

6. If trouble is experienced with the customer's equipment, please contact the manufacturer or the dealer for repair information. If the equipment is causing harm to the telephone network, the telephone company may request that you disconnect the equipment until the problem is resolved.

7. Connection to party line service is subject to state tariffs. Contact the state public utility commission, public service commission or corporation commission for information.

If your home has specially wired alarm equipment connected to the telephone line, ensure the installation of this DSL device does not disable your alarm equipment. If you have questions about what will disable alarm equipment, consult your telephone company or a qualified installer.

RF Exposure Statement

NOTE: The antenna of the wireless models must operate at least 20 cm away from the wireless router and any body part of the user, to be compliant with FCC RF exposure guidelines.

Electrical Safety Advisory

- Before installing or using this unit, please read and understand all of the instructions in this manual. Put this unit in a safe place for later reference.
- Do not use this unit near water. For example, near a bathtub, kitchen sink, laundry tub, swimming pool or in a wet basement.
- Do not use this unit during an electrical storm. There may be a remote risk of electric shock from lightning.
- Do not use this unit to report a gas leak in the vicinity of the leak.
- Only use the power cord and power adapter that are shipped with this unit.
- Do not use this unit in high traffic areas where the power cord can be stepped on or tripped over.
- Do not overload wall outlets and extension cords as this can result in the risk of fire or electric shock.
- Do not open the unit. Opening or removing covers may expose you to dangerous voltages or other risks. Incorrect reassembly can cause electric shock when the unit is subsequently used. Refer all servicing to qualified service personnel.
- Unplug this unit from the wall outlet and refer servicing to qualified service personnel under the following conditions:
  - When the power cord or plug is damaged or frayed.
  - If liquid has been spilled into the unit.
  - If the unit has been exposed to rain or water.
  - If the unit does not operate normally when the operating instructions are followed. Only adjust controls that are covered by the operating instructions. Improper adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the unit to normal operation.
  - If the unit has been dropped or the cabinet has been damaged.
  - If the unit exhibits a distinct change in performance.
- Avoid using a telephone (other than a cordless type) during an electrical storm. There may be a remote risk of electric shock from lightning.
- Do not use the telephone to report a gas leak in the vicinity of the leak.
- Use only the power cord and batteries indicated in this manual. Do not dispose of batteries in a fire. They may explode. Check with local codes for possible special disposal instructions.

Manufacturer's Declaration of Conformance

Warnings. Wireless equipment (such as cordless phones or wireless networking devices) transmits and receives radio frequency (RF) signals. To ensure safe and reliable operation, all wireless devices must be used in accordance with the instructions provided by the manufacturer. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. Changes or modifications could also void warranty. Consult the manufacturer of any wireless device before using it near medical equipment. Turn off wireless devices when in an airplane.

Testing Your HP Fax Machine with the HP Fax Test Service

Print Share Feedback

Introduction

This document will assist you in testing your HP Faxcentaching ortingthe HP Fax Tes Service. Print this document for easy reference by clicking the Printable Version link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below:

NOTE: Be sure that your phone numbe is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services (such as privacy) may prevent you from receiving a fax. ac using voicemail, Call Blocking, or all privacy features.

NOTE: Whenever trouble-shooting a fax issue. It is good practice to set the Automatic Reports option to Every Error before attempting a test fax. This way, even if the print fax fails, an error code will be generated that will guide you in the future trouble-shooting. This option is available on all HP inkjet printers. For other HP products, consult the product's User's Guide for specific steps.

1. Send a one page black and white text fax to 1-888-Hpfaxtest (1-888-473-2938).
2. When your fax is received by the HP Test Fax Service, we will generate a new fax for you within five minutes confirming that we received your fax. This confirms that you can both send and receive fax with your faxmachine.

If you do not receive a return fax within 5-7 minutes, there may be a problem with the setup of your fax machine. Consult the user manual that came with the product for proper setup and configuration.

NOTE: The most common cause of failure is that the faxnumber set in the Fax Header on the machine does not match the number of the phone line connected to the fax. Also, ensure that the fax header contains the full 10-digit telephone number of the faxmachine, including the area code.

For more information or assistance, click **Contact HP** at the top of this page.

ask the experts

Q: I will be traveling to an area where I may need to use snow chains on my 2008 TSX. What product does Acura recommend?

A: If road conditions require extra traction equipment, Acura recommends SCC Radis. Chain CM2412T a cam s-type chain made by Security Chain Company. Always follow your vehicle Owner's Manual when selecting traction aids, because improperly installed or incorrectly sized traction devices can damage your vehicle's brake lines, suspension, body and wheels.

Traction products for other Acura models can be found at www.scc-chain.com and www.qualitychainco.com

Q: I'm having difficulty dialing numbers that aren't in my phone book. Can you give me a few tips on operating the Bluetooth® feature on my 2007 MDX with navigation system?

A: To dial a number not stored in your Bluetooth® HandsFreeLink® phone book, press and release the "Talk" button, wait for the beep and the cue, *natural-sounding voice say,* "Dial, and state the phone number. Be sure to close the windows and moonroof (if so, to minimize background noise.

Your 2007 MDX also has a help feature where you can receive a list of voice commands just press "Talk, wait for the beep, then say, "HandsFreeLink help. Your command list can be repeated to you.

For more info and a cell phone compatibility chart, visit www.acura.com/handsfreelink.

Q: I would like to change the automatic door lock and unlock settings on my 2008 TL. Where can I find out how to do this?

A: You can find this information in a few places. The fastest and easiest is in the Quick Start Guide, under Personalize Settings. Another great source is the Door Lock Settings video at myacura.com. And of course, the on-line Owner's Manual has everything you need to know about your car.

Essentially your TL has two memory settings. The personalized settings include door locks, seat and outside mirror positions, climate control and radio settings. Save your preferences immediately by pressing the "Memory" button on the driver's door and the number that matches your key fob—either 1 or 2.

Have a question you'd like answered in the next Acura Style magazine? Write to us at acurastyle@yahoo.com

Frequently asked questions

Q: What type of MIG Welder should I purchase?

A MIG Welders vary in amperage output. The first question to answer is what type of power you have available - 115 household VAC or 220 Volt.

The second question is how thick is the metal of Heavier steel requires more amperage for adequate penetration

Q: What diameter wire should I use?

A For thin metals, use a smaller diameter wire. For thicker metal use a larger wire and a larger machine. Wire size .030 will provide better penetration than .035 on 115V units

R What type of shielding gas should I use?

A CO2 is good for penetrating welds on steel but may be too hot for thin metal. Use 75% Argon/25% CO2 for thinner steels. Use only 100% Argon for aluminum. You can use a triple mix for stainless steels (Helium + Argon + CO2). The most common shielding gas used is 75/25 Argon/ CO2 which is used for steel only.

Q. What type of welding wire should I use?

A. Use stainless steel wires for stainless steel, aluminum wires for aluminum, and steel wires for steel

Q. What is the best technique to hold a MIG GUN? What impact will it have on the overall bead appearance?

A A drag or pull gun technique creates a little more penetration and a narrower bead profile. Pushing the gun reduces penetration slightly and creates a wider bead.

A common rule of thumb on determining when to Push or Drag: If there is "SLAG" you Drag! Anything else you push

Q. How wide should the weld be?

A: When welding a fillet, the leg of the weld should be equal to the thickness of the parts welded.

Q. When do I use gas?

A Indoors with solid core steel wire. Use flux core wire when not using gas as it creates its own gas file d similar to that when arc welding using an electrode

Note: Remember to reverse your polarity each time

Q Do I need to match the welder's tip to the diameter of the wire?

A: Yes, the wire diameter cannot be bigger than the welding tip. For example: If the welder comes with a .030 tip you can't use .035 diameter wire without the .035 tip.

Q: What is duty cycle?

A The duty cycle of a welder is the amount of time the welder is designed to operate in a 10 minute period (for example: 20% = two minutes). Duty cycle can be increased on some models up to 100% with decreased output

Service discount depends on business agreement, eligible rate plans, proof of employment or affiliation required. Discount may be modified or discontinued at any time without notice, including when your employee or affiliation status changes. Discount only applies to the monthly service charge and may take 1-2 billing cycles to appear on bill.

Mobile Share Value Savings

- If you have a Mobile Share value line with a smartphone on an AT&T Next installment plan, or if you first got your phone at full retail price, brought your own phone, or are out of annual contract, you qualify for a monthly Mobile Share value discount of $25 for that line of service. This discount appears as a credit on your bill.
- If you just upgraded your smartphone to a 2 yr wireless agreement, this confirms you will not receive the Mobile Share Value discount of $25 for this line upgraded.
- In order to keep the credit/discount when upgrading, choose an AT&T Next installment plan, bring your own phone, or pay full retail price for the phone.
- Unused data from your monthly plan allowance is rolled over to the nearest MB and carries over for one billing period ("Rollover Data"). Month by month activity is always consumed before Rollover Data.
- Unused Rollover Data is immediately expires after 1 billing period with plan change, or when your group or account is terminated. Rollover Data is not redeemable for cash or credit and is not transferable.

80/20 - A Balance Diet for Life, Wednesday, March 18, 4-5:15 p.m.
Food plays an important role in our lives. Some foods are nourishing and are essential to good health and other foods actually deplete our system of important vitamins and minerals. When we eat too many processed or refined foods, we feel guilty and upset for making these choices. Wouldn't it be exciting to create a habit of eating nourishing foods 80% of the time and still able to enjoy some the foods you love in moderation?

Break the Salt, Fat and Sugar Habit, Wednesday, April 1, 4-5:15 p.m.
Did you know that eating large amounts of fat, sugar and salty foods alter the brain's chemistry which in turn can increase cravings? If you are compelled to eat these foods, you are not alone. We will learn how to break this cycle by learning to replace fat, sugar and salt with foods that do not trigger the brain/body in a negative way. You will love the way you feel!

Explore Healing Spices to Enhance the Flavor of Food & Health - Wednesday, May 20, 4-5:30 p.m.
Breakthrough scientific research is finding that spices are loaded with antioxidants and other unique health enhancing compounds. Studies of dietary patterns around the world confirm that spice-consuming populations have the lowest incidence of such life-threatening illnesses as heart disease, cancer, diabetes, and Alzheimer's. Examine a variety of herbs and spices and discover not only their healing properties but how to incorporate them into your life

Sugar Busters, Wednesday, June 17, 4-5:15 p.m.
Do you find that you crave sugar? Are you frustrated that sugar is in EVERYTHING? Sugar is hidden in most foods you wouldn't expect. Learn how to control your sweet tooth and uncover these secret hiding places where sugar is found

The Cancer Support Center gives strength, guidance and support to anyone living with a cancer diagnosis, as well as to their loved ones.

Agreement and acknowledgment
By signing this agreement and acknowledgment below, I am confirming that I understand the following:

- *My benefits and/or premium for these benefits may change based on the option I select. Any change in my premium will appear in my January 2018 billing cycle. I understand that if I take no action, my premium will automatically increase with this FPO offer.*
- *My coverage under the FLTCIP is guaranteed renewable. This means my coverage will not be canceled as long as I pay my premium on time. However, this does not mean that my premiums are guaranteed to remain unchanged.*
- *Premiums are not guaranteed. I understand that my premium will not change because I get older or my health changes or for any other reason related solely to me. Premiums may only increase if I am among a group of enrollees whose premium is determined to be inadequate and OPM approves the change.*
- *If I have selected an option to change my coverage within my current plan, I understand that within 30 days after I receive my new schedule of benefits, I may cancel the change in my coverage and return to my original coverage.*

Required: Fill only one oval completely and sign below.

Babysitting safety

- A babysitting job is a very important job. You need to know what to do to be safe.

Enroll in a babysitter safety and CPR course in your community. It will help you learn how to take care of children and be safe.

Before you accept a job

- Make sure you know the family you will be babysitting for.

Discuss the job with your parents or guardians.

- Know how you will get to the job and how you will get home.

Ask what hours you will be working and let your parents or guardians know.

Make sure your parents or guardians have the phone number and address where you will be working.

When you arrive

- Ask the adult who hired you about fire safety like a escape plan.
- Have them give you a home tour. Learn where all the windows and doors are and make sure you can open them.
- Find two ways out of each room - especially bedrooms.

Make sure the family has and and an outside meeting place where everyone should go after escaping a fire.

- Ask the adults to text or write down so you know where they are working.

Stay safe

- Stay with the kids when they're awake and check on them often when they're sleeping.
- Make sure electrics and lights are up high, in a locked cabinet.
- Space heaters should be 3 feet from anything that can burn. Turn the heater off when you leave the room.
- Do not smoke or use candles while you are babysitting.
- If trained not to cook. If you must cook:
  - Keep children out of a 3-foot **"kid-free zone"** around the stove or microwave.
  - Never leave the room when you are cooking.
  - Use the back burner of the stove and turn pot handles toward the back of the stove.
  - Let foods cooked in a microwave cool and then open the container carefully.

https://www.faxtoy.net/

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1-855-330-1239 (It's a toll-free number if you're in the USA.) or 1 213-294-2943 (long distance to Los Angeles, California) and it should appear here within a couple of minutes. (your boss will never notice... maybe) Keep it clean & legal.

Fax single-page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

Privacy Policy. We hate spam and junk faxes, and will absolutely not send you any unsolicited e-mail or faxes. We won't share your information with marketers or anyone else.

Truth: There are so many eligibility rules different for each of the 50 states and always changing, that you should visit your state's website and apply if you think you might be eligible

Myth #10: I'll always be eligible for unemployment benefits

Truth: Don't assume. Just as there are times when your medical insurance doesn't cover a procedure there may be instances where you are laid off yet ineligible for unemployment benefits

TESTING

PLACING A CALL

With your handset in position, place the handset off-hook.

Press the Talk Button on either the Remote ❻ or the Base Unit ⓫. The In-Use Indicator Light ⓭ ⓮ on the Remote and Base Unit will light and you will hear a dial tone.

If you do not hear a dial tone, move the Configuration Switch ⓯ to the opposite setting (A or B). If you still do not hear a dial tone, see **Troubleshooting** on page 11.

Dial a co-worker. When your party answers, speak normally.

If you do not sound loud enough, move the Transmit Level Switch ⓰ to position 1 or 2. If you sound too loud, move the Transmit Level Switch to position 2 or 3. You can further fine tune the transmit level with the Talk Volume Control ⓱.

Adjust the volume of your co-worker's voice by using the Listen Volume Control ⓲.

Replace the handset upon completion of the call and press the Talk Button on either the Remote ❻ or the Base Unit ⓫. The In-Use Indicator Lights ⓭ ⓮ will go out.

RECEIVING A CALL

With your handset in position, when your telephone notifies you of an incoming call, place the handset off-hook.

Press the Talk Button on either the Remote ❻ or the Base Unit ⓫. The In-Use Indicator Lights ⓭ ⓮ will go on. Begin speaking.

Replace the handset upon completion of the call and press the Talk Button on either the Remote ❻ or the Base Unit ⓫. The In-Use Indicator Lights ⓭ ⓮ will go out.

STEP 4

PAGE FUNCTION

If someone at the Base Unit needs to summon you, pressing the Page Button ⓬ momentarily causes the Remote to emit two long, loud beeps.

If you have misplaced the Remote, press the Page Button ⓬ for 3 seconds and the Remote will emit a steady alert. Press the Talk Button ⓫ once you have located the Remote.

Da TEST

People write the most inept things on their resumes, sometimes downright hysterical. Why should only recruiting managers get to laugh at them? The Top 10 are at the bottom. Enjoy!
From Resume Hell

1. "Career break in 1999 to renovate my home"
2. "1990—1997 Stevenstone – Royal Air Force"
3. Hobbies: "enjoy cooking Chinese and Italians"
4. "Service for old man to check they are still alive or not"
5. Cleaning skills: "cleaning pet wearing window cleaning, mopping, etc"
6. Job required: counseling clients or accidental insurance policies available
7. "2001 summer Voluntary work be taking care of the elderly and vegetable people"
8. "I'm intolerant to have more skills that I'm seeking today in a furniture factory as a driver"
9. "I am also in enrol on a Business and Finance Degree with the Open University. I feel that this qualification will prove detrimental to me for future success."
10. "Time is very valuable and it should be always used to achieve optimum results and I believe people not be played around with."
11. "I believe that astronaut is the first level of strength, given the right attitude and driving force. My people advised me to for my personality"

From Careerbuilder.ca's 10 Weirdest Resume Blunders

1. Candidate included a letter from his wife
2. Candidate states the ability to persuade people sexually using her partner
3. Candidate wrote resume as a play – Act 1, Act 2, etc.
4. Candidate included naked picture of himself

From Amy Joyce on Resume Bloopers.

1. "Skills: Strong Work Ethic, Attention to Detail, Team Player, Self Motivated, Attention to Detail"
2. Woman who sent her resume and cover letter without deleting someone else's editing, including weird comments as "I don't think you want to say this, would yourself here"

From Ask Annie's article blame resume blunders:

1. "an applicant pasted a headshot as the background to her resume"
2. Other interests: "Playing with my two dogs (They actually belong to my wife but I love the dogs more than my wife)"
3. "One applicant went colored paper and drew glitter designs around the border"
4. Hobbies: "getting drunk everynight down by the water, playing my guitar and smoking pot"
5. Why Interested in Position: "to keep my parole, blame from putting back me in jail"
6. A woman had attached a picture of herself in a mini mouse costume
7. Hobbies: "Drugs and girls"
8. Under "job wished skills" – for a web designer: "can function without additional oxygen at 24,000 feet"
9. My sister-in-law misspelled the word "blackmailing" in her skill set
10. The objective on one recent resume I received blame that the applicant wished to pursue a challenging account executive position with our rival firm.
11. Objective: "career on the Information Supper Highway"
12. Experience: "Stalking, shipping & receiving"
13. "I am great with the public."
14. A candidate listed her e-mail address as pornaccessbig******.com
15. This applicant listed her name as Alex in the resume but wrote Alyce on the blame application
16. One individual's electronic resume included links to her homepage, where the pictures were of her in the nude.
17. "I sent out my resume on the back side of a draft of a cover letter to another firm
18. "My flat is included cleaning the restrooms and dusting the customers."
19. One applicant for a nursing position noted that she didn't like dealing with blame or needles.
20. Achievements: "Nominated for prom queen"
21. Hobbies included a resume with a head and chocolate picture in the top left of the first page. The picture was of a man's chest wearing a red shirt, and tin
22. a resume was printed on the front of the person's current employer's letterhead
23. One resume that came across my desk blame how the individual had won a colonel for building toothpick bridges in middle school
24. A resume had several grease blame and smudges of chocolate on it.
25. Hobbies: "Having a good time

Ooma Telo Fax Issues

Re: Ooma Telo Fax Issues

by **ggilman** » Fri Oct 02, 2009 4:55 am

> *weakkicket wrote:*As far as QoS I am still trying to find that setting?

Is your telo set up before or after your router? If it is between your modem & router, QoS settings are managed in the telo device. Go to setup.ooma.com from a PC on the network.

If your telo is behind your router, the router needs to be able to configure QoS. Most newer routers can but not all do. Go to your router's settings to make the change.

If you still have difficulty finding, Post your configuration (before/after router) and we'll try to help.

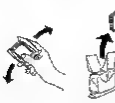
2 Open the cartridge cover

3 Shake the ink cartridges gently 4 or 5 times, then unpack them



4 Remove only the yellow tape from each cartridge.

Caution: Don't remove any other seals or the cartridges may leak.

5 Insert the cartridges in the holder for each color

6 Press each cartridge down until it clicks

7 Close the cartridge cover. Press down until it clicks.

8 Lower the scanner unit.

9 Press **OK** to prime the ink delivery system. This takes about 5 minutes.

Note: Your printer ships with full cartridges and part of the ink from the first cartridges is used for priming the printer.

Caution: Don't turn off the printer while it is priming or you'll waste ink.

10 When you see this menu on your product's LCD screen, do not press the **OK** button yet. Continue with the instructions in the following sections to load paper in your product and install software.

5 Load paper

You can load letter- A4- or legal-size paper, as well as various photo papers. For information on the papers available for your product, see the *Quick Guide*. For instructions on loading legal size or photo paper, see the online *User's Guide*.

Woodruff Fontaine House:

There is one room in this historic home that is purported to be haunted. Molly Woodruff Henning is said to inhabit The Rose Room, though she occasionally wanders throughout the rest of the house. A seemingly friendly spirit, Molly reportedly once instructed museum staff on the correct placement of the furniture in her former bedroom.

Soil Sampling Pastures

John Lory and Steve Cromley
Division of Plant Sciences and Commercial Agriculture Program

Collecting a representative soil sample is an important step in developing a nutrient plan for your farm. The goals of your soil sampling plan should be to:

- Identify manageable sized fields with similar characteristics
- Accurately and cost-effectively determine the nutrient status of these fields.

Highly variable soil fertility levels across a field can make it difficult to collect a good soil sample. With planning, representative soil samples can be obtained from your pasture. Careful, comprehensive soil sampling pays dividends in smarter management decisions and efficient use of fertilizer nutrients.

How should I divide my pastures?

When creating a soil-sampling plan for fields and farms, the objective is to divide fields into areas that you expect to have similar characteristics or that you are likely to manage differently than other parts of the pasture. Typically sampling areas should not exceed 20 acres and can be much smaller. In management-intensive grazing systems, frequently the best strategy is to sample each paddock separately.

Pastures have many sources of variability:

- Animal activities and habits are a huge source of variation in pastures.
  Areas around winter feeders, shade trees and water sources have higher soil test levels.
  Manure piles and urine spots have elevated nutrients.
- Natural features such as soil type and topography are important sources in variability particularly in low-lasting and unfertilized fields.
- Human activities can overwhelm natural sources of variability in a field.
  Nutrient hot spots are often found near old feeding areas and homesteads.
  Differences in fertilizer patterns can create differences in soil test levels. An indicator of different fertilizer histories can be old or existing fence lines.

Figure 1 Obtaining a quality soil sample.

- There is often a band of elevated pH within 150 feet of a gravel road caused by drifting dust from the crushed limestone road surface.

When sampling a paddock or field, avoid sampling in areas that are unrepresentative of the field (Figure 1). Avoid taking cores near shade trees, water sources and winter feeding areas. If you want to know soil test levels in these areas, sample them separately.

How to collect a soil sample

Your objective is to collect 15 to 20 cores from the area to be sampled (Figure 1). You need to collect more cores per field in a pasture than in a row-crop field because there typically is much more variation in a pasture from manure piles and urine spots.

The best approach is to travel across the entire area to be sampled in a zigzag pattern, randomly selecting spots to take a core (Figure 1). Sampling depth is 6 in 7 inches for most objectives in pastures (Figure 2). Do not take too shallow a sample as this will overestimate the soil fertility level in your pasture.

EPSON
EXCEED YOUR VISION

Congratulations, you have successfully installed your new EPSON printer!

Here are some tips for getting great prints:

- Genuine EPSON inks have been engineered to deliver stable, long-lasting photographic quality when used with EPSON papers.
- To protect your photos, frame them under glass or store them in archive sleeves or albums. Your prints will last for generations!
- Epson offers an extensive line of specialty papers that provide outstanding results when used with EPSON printers and genuine EPSON ink.
- For best results, make sure the paper type selected in your printer software matches the type of paper loaded in the printer. See your documentation for more information.

NEVABA CUANDO NACIAS

Empiezan las contracciones,
Tan suaves ni las sentía
Papa atento al teléfono
Será que viene Lucía?

Las horas han pasando
La ilusión nos mantenía
A cada 40 y tantos
Una señal de tu vida

De noche las cosas cambian
Con jubilo amor y alegría
Las contracciones se acercan
Se viene la amora mía !

Papá y mamá respiran
Deseando tu compañía
Se acercan al sanatorio
A darte amor la vida

Las horas siguen pasando
Se va haciendo de día
Papá y mamá esperando
Tu música de finuritas

Papa y mamá caminan
Haciendo los ejercicios..
Respiran cantan y bailan
Mamá llora de alegría

Las horas siguen pasando,
Es una dulce agonía
Eterno el tiempo parado
Anunciando tu venida

Se acercan las contracciones
Cada vez son más intensas
Sabemos que falta poco
Deseamos verte mi vida

Tu música nos acompaña
Que dulce su melodía
Por algo te gusta tanto
Ya viene nuestra Lucía!

Ya pasada medianoche
Llegaste a nuestras vidas
De lágrimas y candores
Te cubre preciosa mía

Papa y mama te cantan
Tu canción de bienvenida
Papa te tiene en sus brazos

There are complications First, Suzy needs a dress

'A dress!' Suzy shrieks, as though he has suggested a crucifixion or a gentle roasting She runs around the house, flapping her arms A dress!

Morris is dark but Suzy is blond. She has never worn a dress a day in her life

Come on Suzy,' Morris says 'It's not so bad.'

'Have you ever worn a dress?' she asks

'Yes,' he says

'How was it?'

'You get used to it,' Morris says 'You have to get the right kind, that's all '

'What is the right kind?'

Black satin bias-cut with skinny little straps and a velvet train Did he really, all those years ago? 'Well, now' Morris says 'Let's see.'

* * *

Morris and Suzy take the bus downtown He pays and she looks out the window

Morris thinks about dresses and little girls in dresses He thinks about sturdy cotton, blue and white stripes, dresses Suzy could fall down in and people would worry about her first Morris loves Suzy and wants her to be pretty and happy He knows this is a contradiction and it distresses him pleasantly, like love It draws his love for her out ahead of him in a long ribbon, trailing him along, flustered and anxious and determined to get things right.

Suzy thinks about construction paper and glue She thinks about spreading a thin pool of glue into her palm and letting it dry and peeling it off again and how it makes a print of her skin, and how her palm is cool and sticky dry afterwards She thinks about scissors and the heavy feel of cutting and the sound, like a lion's snarling purr She thinks about looping noodles of white glue all over the world

They find Suzy's dress on a hanger on a rack in a large department store Morris knows it when he sees it The dress is plain yellow with a green satin sash and a bow above the bum He selects

Today's Economics

A recent study found that the average American male walks about 900 miles a year. Another study found that Americans drink, on average, 22 gallons of alcohol a year. This means that, on average, Americans get about 41 miles to the gallon. Makes you proud to be an American!

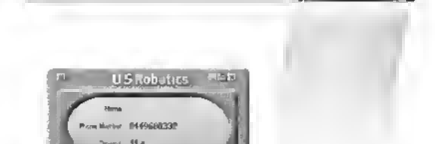
USRobotics Internet Call Notification User Guide

Introduction

Overview

The Internet Call Notification feature available on USRobotics V.92 modems, allows you to stay in touch with incoming voice telephone calls while maintaining your online connection. During a V.92 Internet connection, the USRobotics Internet Call Notification feature will:

- Display an applet to inform you of any incoming calls
- Display Caller ID information (if available)
- Allow you the option to ignore an incoming call, take an incoming call while placing your Internet connection on hold for a short period of time, or drop your Internet connection to take an incoming call for a longer phone conversation. Simply use the regular telephone handset attached to your modem or modem line to talk with the calling party.



Important Note: V.92 features are dependent on your Internet Service Provider (ISP) and your phone company's technical specifications. Some or all of the features described as follows may fail to operate if your ISP does not support V.92 or if your telephone company uses non-standard methods to handle dial calls on a single phone line. Moreover, phone line quality may adversely affect V.92 features. USRobotics has made every effort to ensure full support of V.92 features in many countries, but local deployment of ISPs and phone company support is beyond the control of USRobotics.

Setup Requirements

There are three main features offered with Internet Call Notification to manage incoming calls while you are online:

Standing Pilot

Standing-pilot gas furnaces represent a significant number of residential gas furnaces that are still in use today. A standing-pilot gas furnace is equipped with a naturally aspirating gas burner, a draft hood, a solenoid-operated main gas valve, a continuously operating pilot light (standing-pilot), a thermocouple safety device, a 24-volt AC transformer, a heat exchanger, a blower and motor assembly, and one or more air filters. The standing-pilot is the main distinguishing characteristic of the low-efficiency conventional gas furnace.

Mid-Efficiency

A mid-efficiency gas furnace is equipped with a naturally aspirating gas burner and a pilot light. The pilot light is unlike a standing-pilot. It does not run continuously. The pilot light is shut off when the furnace is not in operation—when the thermostat is not calling for heat. The heat exchanger is more efficient than one inside a conventional furnace. There is no draft hood. There may be a small fan installed in the flue pipe to create an induced draft, so these furnaces are sometimes referred to as induced-draft furnaces. A mid-efficiency gas furnace is also equipped with automatic controls, blower and motor assembly, venting, and air filtering. Some mid-efficiency furnaces have a motorized damper installed in the exhaust flue pipe. A mid-efficiency furnace is about 20% more energy efficient than a conventional gas furnace. A mid-efficiency furnace has an AFUE rating of 78 to 82%. The intermittent-pilot is the main distinguishing characteristic.

High-Efficiency

High-efficiency gas furnaces have AFUE ratings of 90% and greater. A solid-state control board controls the ignition. There is no continuous pilot light. There are two or sometimes three heat exchangers installed inside a high-efficiency gas furnace. Condensate is produced when heat is extracted from the flue gases. The temperature of the flue gases is low enough to use a PVC pipe as the vent exhaust pipe. There is no need to vent the exhaust gases up a chimney stack.

There are two different types of high-efficiency furnaces:

- one with an intermittent-pilot or direct-spark, and
- One with a hot-surface ignition system

4. The economy is in shambles with more than 90 million Americans out of work

Of course it doesn't have anything to do with that.

In his interview with the New Yorker, Obama revealed he is more than a liar and a crook and an incompetent. It turns out he's delusional.

What do I mean?

Listen to what Obama thinks are his first-term accomplishments:

1. the economic rescue;
2. 44 straight months of job growth,
3. a reduction in carbon emissions;
4. a spike in clean-energy technology.

1. What does he mean by "economic rescue"? We're mired in five years of economic decline and a malaise that would make Jimmy Carter blush. Economic rescue? How about economic arson?

2. What does 44 straight months of job growth mean? Most people would assume that would mean more people are working, right? Right? Wrong. In fact, there hasn't been one day during the entire Obama presidency when as many Americans were working as on the day George W. Bush left office – which by the way was still an economic crisis.

3. A reduction in carbon emissions? Naturally. With less industry, fewer people working, energy prices skyrocketing, I suppose the benefit of all this misery would be a reduction in carbon emissions. Does it make you feel better about higher prices and less money to spend?

4. A spike in clean-energy technology? Yes, it's true that Obama awarded major government grants to his campaign contributors who wanted taxpayer money to start up companies like Solyndra. We remain one day away from those companies maybe, possibly producing something.

This is the best Obama can do. This is his track record.

Glaringly absent from the list was "Obamacare."

Even he can't bring himself to call it an achievement.

Where is the press to point all this out?

Where are the watchdogs?

Where was New Yorker contributor David Remnick to serve as the truth's advocate?

They were AWOL – as usual.

However, there is some truth revealed in the interview.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

How to Install Ubuntu Server on Acer Aspire Easystore H340 Windows Home Server

I bought an Acer Aspire Easystore H340 Windows Home Server last summer because external hard drives weren't cutting it anymore, and I wanted something more versatile than a NAS. I struggled to utilize WHS and used it primarily as a dumb dump which is exactly how a NAS would have served me. Finally, after having had the sheer headache of connecting to my WHS from both OS X and Windows 7, I decided to figure out how to get on there. Usually this would be a routine task, but the Acer Aspire Easystore doesn't have any way to connect a monitor so you have to either or with a little bit of a workaround. I chose the workaround.

Preparation

Before starting, I backed up all my data to another PC on our network. Then, I removed the drive that held the OS from the H340 (it was conveniently labeled) and put it in an extra SATA to USB external enclosure I had. I

Installing Ubuntu

I connected the external enclosure with my H340 drive to my MacBook Pro and quickly formatted it with DiskUtility to Mac OS Journaled. Looking back, that probably wasn't necessary. Then, I restarted my MBP and booted from the Ubuntu Server CD by holding 'C'. I chose to install it to my external drive (and not my MBP). The configuration is easy but takes a little longer than normal since it's reading from the CD and writing through the USB port. When it came time to install the GRUB bootloader I cannot quite what address to type in so I chose 'Go Back' which brought me to the Install menu screen that allowed me to open a shell. In the limited shell, I was able to to run 'blkid -l' which listed all the hard drives available and gave the path. My external enclosure's path was /dev/sdb (and my MBP's hard drive was /dev/sda which made sense). Make sure to install OpenSSH Server or you won't be able to SSH from your server at the end!

Tricky Part

After the install finished successfully my MBP rebooted as normal, and I saw in Disk Utility that my external had a Linux hard drive partitioning that wasn't mountable by OS X. Annoyed I stopped it into my Acer case and thought I was off and running. But then I couldn't ping the box.. or SSH into it... Luckily I came across stating that I needed to 'delete a line in /etc/udev/rules.d/70-persistent-net.rules

```
SUBSYSTEM=="net"  ACTION=="add"  DRIVERS=="?*"  ATTR{address}=="00 00 00 00 00 00"  ATTR{type}=="1"  KERN
```

I restarted my MBP and booted from the Ubuntu Server CD again, this time choosing to restore a restore. I chose my Ubuntu install on my external (mounting it as /dev/disk0s1 because I kept it generic) and a root shell was launched. I used my standby command line editor nano to open the *70-persistent-net.rules* file and removed both lines that started with *SUBSYSTEM*=="net" Write to output, exit, and reboot.

Result

I put my external drive back in my Acer again and noticed the network LED was blinking this time around. Sure enough I was able to ping the box and SSH in! Now I'm running Ubuntu Server instead of Windows Home Server. I'll have a lot more flexibility on what I me run and will be able to manage it all via Terminal instead of some taskbar program in a Vista VM or on our other Windows 7 box. Once I get RAID setup, I'll feel a lot more confident about my data. Relying on WHS for network duplication was a risking time bomb. I'll also get to brush up on my sysadmin skills which is what I'm most excited about!

FAX TEST

http://www.brother.usa.com/service/default.aspx or contact Brother Customer Service by calling 1-877 BROTHER (1 877 276 8437) Monday through Friday excluding holidays

If your machine is out of warranty, you can locate a Brother Authorized Service Center using the information I sted above

5 If you are using a DSL line follow these steps

If you are not using a DSL line, go to **STEP 6**

NOTE If you are unable to perform the troubleshooting steps listed below contact your DSL provider for assistance

a Turn off the DSL modem or disconnect its power supply

b Disconnect the DSL modem from the telephone line filter

c Remove the filter from the wall jack

d Connect your Brother machine to the wall jack

e Test by sending a fax

If the fax is sent successfully you ll need to contact your DSL provider for assistance in resolving the interference from the DSL system

If the problem continues go to **STEP 6**.

6 Send a fax

a Before placing your document(s) in the ADF, verify the LCD displays the date and time

b Place the document(s) you want to send into the ADF face down, top edge first until you feel it touch the roller

NOTE After you put your document(s) in the ADF, the Brother machine s LCD should display the fax-sending options

c Do one of the following

If the LCD changes go to **STEP 7**.

If the LCD continues to display the date and time go to **STEP d**

d If the LCD continues to display the date and time, verify the documents are between 5.8 and 8 5 inches wide and 3 9 and 14 inches long

If the document is less than 5.8 inches wide the document sensors will not detect the document and the Brother machine will not transmit The document must be wide enough to reach the sensors to inform the machine there is a document to send You will need to use a wider sheet of paper

If the paper meets the above-listed specifications, the LCD continues to display the date and time when you place a document into the ADF and your machine is within warranty you can locate a Brother Authorized Service Center (ASC) in your area by clicking on the link below

Adobe Acrobat PDF Files

Adobe® Portable Document Format (PDF) is a universal file format that preserves all of the fonts, formatting, colours and graphics of any source document, regardless of the application and platform used to create it.

Adobe PDF is an ideal format for electronic document distribution as it overcomes the problems commonly encountered with electronic file sharing.

- ***Anyone, anywhere*** can open a PDF file. All you need is the free Adobe Acrobat Reader. Recipients of other file formats sometimes can't open files because they don't have the applications used to create the documents.
- PDF files ***always print correctly*** on any printing device.
- PDF files always display ***exactly*** as created, regardless of fonts, software, and operating systems. Fonts and graphics are not lost due to platform, software, and version incompatibilities.
- The free Acrobat Reader is easy to download and can be freely distributed by anyone.
- Compact PDF files are smaller than their source files and download a page at a time for fast display on the Web.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

Heb. 4:1 Therefore, while the promise of entering his rest still stands, let us fear lest any of you should seem to have failed to reach it.

Heb. 4:11 Let us therefore strive to enter that rest, so that no one may fall by the same sort of disobedience.

Heb. 4:14 Since then we have a great high priest who has passed through the heavens, Jesus, the Son of God, let us hold fast our confession.

Heb 4:16 Let us then with confidence draw near to the throne of grace, that we may receive mercy and find grace to help in time of need

Heb 6.1 Therefore let us leave the elementary doctrine of Christ and go on to maturity, not laying again a foundation of repentance from dead works and of faith toward God,

Heb. 10:22 let us draw near with a true heart in full assurance of faith, with our hearts sprinkled clean from an evil conscience and our bodies washed with pure water 23 Let us hold fast the confession of our hope without wavering, for he who promised is faithful. 24 And let us consider how to stir up one another to love and good works,

Heb 12 1 Therefore, since we are surrounded by so great a cloud of witnesses, let us also lay aside every weight, and sin which clings so closely, and let us run with endurance the race that is set before us,

Heb 12:28 Therefore let us be grateful for receiving a kingdom that cannot be shaken, and thus let us offer to God acceptable worship, with reverence and awe,

Heb 13 13 Therefore let us go to him outside the camp and bear the reproach he endured.

Heb 13 15 Through him then let us continually offer up a sacrifice of praise to God, that is, the fruit of lips that acknowledge his name

Questions 17-26 are based on the following passage.

The following passage is adapted from a book published in 1999.

Calling it a movie-up would be far too dramatic. But for more than half a century—even at the midst of some of the greatest scientific achievements in history—physicists have been quietly on the of a dark cloud looming on a distant horizon. The peak en es this. There are two foundational pillars upon which modern physics rests. One is general relativity, which provides a theoretical framework for understanding the universe on the largest of scales: stars, galaxies, clusters of galaxies, and beyond to the immense expanse of the universe itself. The other is quantum mechanics, which provides a theoretical framework for understanding the universe on the small: out of scales: molecules, atoms, and all the way down to subatomic particles like electrons and quarks. Through years of research, physicists have superbly confirmed to almost astonishingly able accuracy virtue by all predictions made by both of these theories. But these same theoretical tools inexorably lead to another disturbing conclusion: As they are currently formulated, genera relativity and quantum mechanics *cannot both be right*. The two theories underlying the tremendous progress of physics during the last hundred years—progress that has explained the expansion of the heavens and the fundamental structure of matter—are inherently incompatible.

If you have not heard previously about this frentious antagonism, you may be wondering why. The answer is not hose to come by. It all but the most extreme situations, physicists study things that are either small and light (like atoms and their constituents) or things that are huge and heavy (like stars and galaxies), but not both. This means that they need use only quantum mechanics or only general relativity and can, with a furtive glance, shrug off the lack ing admonition of the other. For 50 years this approach has not been quite as blissful as ignorance, but it has been pretty close.

But the universe can be interest. In the central depths of a black hole, an enormous mass is crushed to a microscopic size. According to the big bang theory, the whole of the universe erupted from a microscopic nugget whose size makes a grain of sand look colossal. These are realms that are very and yet incredibly massive, therefore requiring that both quantum mechanics and general relativity should necessarily be brought to bear. The equations of general relativity and quantum mechanics, when mixed and begin to shake, rattle, and gush with steam like a decrepit automobile. Put less figuratively, well-posed physical questions elicit nonsensical answers from the unhappy amalgam of these two theories. Even if you are willing to keep the deep interior of a black hole and the beginning of the universe shrouded in mystery, you can't help feeling that the hostility between quantum mechanics and general relativity must out for a deeper level of understanding. Can I really be that the universe at its most fundamental level is divided, requiring one set of laws when things are large and a different, incompatible set when things are small?

Superstring theory, a young upstart compared with the venerable outlines of quantum mechanics and general relativity, answers with a resounding no. Famous research over the past decade by physicists and mathematicians around the world has revealed that this new approach to describing a theory at its most fundamental level resolves the tension between general relativity and quantum mechanics. In fact, superstring theory shows more. Within this new framework, general relativity and quantum mechanics require one another for the theory to make sense. According to superstring theory, the marriage of the laws of the large and the small is not only happy but inevitable. Superstring theory has the potential to show that all of the wondrous happenings in the universe—from the frantic dance of subatomic quarks to the stately waltz of orbiting binary stars—are reflections of one grand physical principle, one master equation.

17. The "dark cloud" mentioned in line 4 refers to an

(A) atypical diagnosis
(B) unsupported hypothesis
(C) unknown threat
(D) evil influence
(E) important accumulation

18. Which pairing best represents the different models of the universe presented in lines 7-14?

(A) Big and little
(B) Old and new
(C) Complex and simple
(D) Verified and undocumented
(E) Theoretical and practical

19. The author's use of italics in line 20 serves primarily to

(A) draw attention to a commonly known hypothesis
(B) stress a speculative aspect of two theories
(C) support a difficult claim
(D) underscore a surprising point
(E) emphasize an area of agreement

Countering spills and stains

By Frances Ingraham Heins
New York Times News Service

Just like with fabrics, the longer a stain has time to set on a countertop, the harder it is to get out. Because countertops come in a variety of surfaces, you may need to know a number of cleaning methods. The following is a list of care recommendations:

■ Butcher block

Surfaces should be coated with a protective food block oil every four to eight weeks to protect and preserve the finish. Clean with mild soap and water.

Spilled water may cause cupping, cracking and warping beyond repair, say experts. According to DeVos Custom Woodworking in Dripping Springs, Texas, vinegar left on block countertops may damage them beyond repair. To remove stains, use light sandpaper or fine steel wool on the stain and continue regular maintenance. Stain will disappear into the wood grain. According to John Boos & Co., makers of butcher block surfaces in Effingham, oats in the finish should be resealed with a 1-to-1 mixture of paraffin and mineral oil to prevent the exposed wood from absorbing moisture.

■ Ceramic tile

This material is usually impervious or highly resistant to staining, but avoid letting acidic substances linger on grout lines. Orange juice, coffee, vinegar, wine, mustard, tomato-based products and soft

CancerTYPE ID — Molecular Classification with CancerTYPE ID

FFPE Tissue Processing & Tumor Enrichment

- CancerTYPE ID requires as few as 300-500 viable tumor cells and is compatible with limited biopsy specimens such as FNAs, cytological specimens, and small core needle biopsies.
- CancerTYPE ID routinely employs laser guided microdissection to enrich for tumor specimen.

Gene Expression Profiling

- CancerTYPE ID uses a robust real-time RT-PCR platform to detect very small differences in gene expression.
- CancerTYPE ID measures and integrates the gene expression of 92 genes, 5 normalization genes and 87 lineage determinant and tissue-specific genes, most of which are not routinely measured by IHC.

Reference Tumor Database & Algorithm

- CancerTYPE ID uses a computational algorithm to predict the patient's tumor type based on the degree of similarity of the sample's 92-gene expression profile to a reference database of gene expression profiles. The reference database contains gene expression information from over 2,000 tumor specimens of known histogenesis, and molecularly ~95% of all solid tumors based on incidence.
- The CancerTYPE ID algorithm provides a predicted main type and any sub-types in rank-order by relative probabilities, which are based on the tumor's gene expression similarity to tumors of these types in the reference database.

Molecular Classification

- CancerTYPE ID classifies 28 tumor types and 50 tumor subtypes.
- In an independent validation of 2998 blinded samples, the molecular diagnosis was 87% accurate for main tumor type and 86% accurate for tumor subtype.

SAMPLE TEST REPORT

Interpreting CancerTYPE ID Test Results

MOLECULAR DIAGNOSIS

The [redacted] molecular diagnosis is the CancerTYPE ID prediction of certain tumor subclassification. It is reported as a percentage (e.g. 90%), the tumor is reported as "Indeterminate", in this case, the test report will also indicate tumor types that can be ruled out and types that cannot be excluded.

CAN NOT BE EXCLUDED

When applicable, tumor types on the CancerTYPE ID reference database that share some gene expression profile similarity to the patient's sample such that they cannot be excluded. Item diagnostic consideration will be listed here. In some rare cases

RULE OUTS

The CancerTYPE ID test report also lists tumor types that can all be ruled out with 95% confidence. In an independent validation of 2998 blinded samples, the rule-outs were 95% accurate. This may provide useful differential diagnostic information when two or more potential tumor types are suspected and one or more tumors may be ruled out in the rule outs.

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has heen traveling since 5/13/07!

VIOLATION OF CALIFORNIA VEHICLE CODE (CVC)

Stephen Nance, you directly and proximately caused the collision as a result of reckless, negligent and careless driving of your truck in violation of the following CVC Sections

1 **CVC Section 22350**, driving your truck in excess of basic speed law
2 **CVC Section 22351 (b)**, driving your truck in excess of the prima facie speed established by this code.
3 **CVC Section 21658 (a)** making an unsafe lane change
4 **CVC Section 22348 (a)** driving your truck at a speed greater than the established speed limit.
5 **CVC Section 23103 (a)** driving your truck recklessly
6 **CVC Section 21070** Unsafe Operation of Motor Vehicle causing bodily injury

Stephen Nance is responsible for the accident, since he clearly failed to follow the traffic safety laws and failed to drive safely by making an unsafe lane change. Had Stephen Nance diligently obeyed and complied with CVC and exercised due care and caution in operation of his truck the accident would not have occurred.

The Traffic Collision Report compiled by Officer Reeves ID 016854 concluded that Stephen caused this collision by making an unsafe lane change in violation of CVC 21658(a).

It is conclusive proof, as discussed above, and based upon the Traffic Collision Report, that Stephen Nance's conduct in driving his truck at dangerous, reckless speed and by making an unsafe lane change, caused the accident on March 16, 2012, which severely injured my client.

EXTENT AND NATURE OF INJURIES

After the collision my client experienced neck and back pain. However, since my client took pain relief medications for his legs earlier in the day he did not feel the full extent of the neck and back pain at the time of the collision. Later in the night when the effect of

Why Liberal Elites Are Opposed to Empowering Parents

Why are white, liberal elites so hostile to school choice?

Kevin Chavous, chairman of Democrats for Education Reform, argues that "Vouchers Can Help Kids and Big-City Politicians" (op-ed, Oct. 8) who are struggling to fund public schools and other city services would keep up with budget-crushing pension, health-care and debt obligations. As Mr. Chavous appears to recognize, the major impediment to "unleashing parental choice in education" are those big-city politicians and their constituencies—both teachers' unions and liberal elites—and the Obama administration. Conservatives generally support school choice.

Why are white, liberal elites so hostile to school choice? A primary argument is that public school resources are reallocated when students exit the system—and that the better alternative is to make all public schools work.

A less advertised rationale for opposition to vouchers is, at its core, pure and simple paternalism mixed with condescension. Poorly educated, impoverished black parents, including many women raising children on their own, are unprepared to evaluate and select the best school options for their children. It takes a state, run by enlightened and educated "liberals," to decide what is best for those disadvantaged students. One can understand that big-city politicians, teachers' unions, even if Mr. Chavous is correct that school choice actually can ease budget pressures. The willingness of well-off white liberals and the Obama administration to keep throwing poor black children under the public school bus is dumbfounding and irresponsible.

Terry Hill

Boston, Va.

No matter how much President Obama and his fellow Democrats extol how much they "care about and want more not only for education," their current conversion with the teachers' unions shows how little they care for the children, and thus the future of the country. Their overlying interest is maintaining power in government.

How Fax Machines Work (and Why They're So Inconvenient)

"It's so fast and easy, I should have a fax machine." are all connected to the plain old telephone line. When you use a standard fax machine, the fax machine places a phone call to the fax machine you specify. The fax machine at the destination number answers and the document is transmitted over a telephone call.

The process involved both the internet and seems laughably archaic at this point. Perhaps a person may type out a document, print it out and scan it into the fax machine which sends it over a phone line. The person receiving the fax may then print the document and scan it back into a digital file. They've come full circle and opened an unnecessary step for no other reason than to follow protocol.

(a) Memory Consumption (b) Running Time

Fig. 11. Effect of $|C|$ (Default α as 5%)

Summary. Our goal is to show that the solutions incorporating *SCP* and *DTP* simultaneously achieve the best performance for all three types of DL queries, in terms of both space and time. In particular, they require less than 30MB memory and 200 seconds to answer DL queries in a road network of 175,813 nodes, 323,000 edges up to 200,000 objects, and shown in Figs. 10-11(a) (resp. (b)), the performance of the solution is robust with the number of objects. The experiment results from the other data sets are omitted, and suggest that setting $\beta = 1^{\text{st}}$ is ideal to provide a good performance.

VIII. Conclusion

This work presents a comprehensive study on optimal location query in road networks. It addresses closely the gap between previous studies and practical applications in such scenarios. Our study covers three important types of optimal location queries, and provides a unified framework that solves all three query types effectively. Extensive experiments on real datasets demonstrate the scalability of our solutions in terms of both memory and space consumption. Interesting directions for future work include (1) the incremental monitoring of the optimal locations when the facility or the client sets have been updated and (2) the optimal location queries for moving objects in road networks.

How Can I Test My Fax Machine?

I just hooked up a new fax machine, and I'd like to test it just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax.Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero — this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

To test the fax, you need to go to the website linked. He linked it in the first few words of his post.
"I found this site today"
so if you miss that putting a "Test Test Test" in comments not going to help
However because you missed it, what will help is this link: http://www.interpage.net/faub-wwwFax.html

General Instructions

CAUTION *Do not sign this form unless all applicable lines have been completed.*

Purpose of form. Use Form 4506-T to request tax return information. You may also designate (on line 5) a third party to receive the information. Taxpayers using a tax year beginning in one calendar year and ending in the following year (fiscal tax year) must file Form 4506-T to request a return transcript.

Note. If you are unsure of which type of transcript you need, request the Record of Account, or if available, the most detailed information.

Tip. Use Form 4506, Request for Copy of Tax Return, to request copies of tax returns.

Automated transcript request. You can quickly request transcripts by using our automated self-help service tools. Please visit us at IRS.gov and click on "Order a Return or Account Transcript" or call 1-800-908-9946.

Where to file. Mail or fax Form 4506-T to the address below (or the state you lived in, or the state your address was in, when that return was filed. There are two address charts. one for individual transcripts (Form 1040 series and Form W-2) and one for all other transcripts.

If you are requesting more than one transcript or other product and the chart below shows two different Where to file addresses, use the address based on the address of your most recent return.

If you completed and filed Form 2848 to authorize the third party, the IRS must receive Form 4506-T within 120 days of the date signed by the taxpayer or it will be rejected. Ensure that all necessary items are completed before signing.

Individuals. Transcripts of jointly filed tax returns may be furnished to either spouse. Only one signature is required. Sign Form 4506-T exactly as your name appeared on the original return. If you changed your name, also sign your current name.

Corporations. Generally, Form 4506-T can be signed by: (1) an officer having legal authority to bind the corporation, (2) any person designated by the board of directors or other governing body, or (3) any officer or employee on written request by any person whose name and address is on the last tax return filed.

Partnerships. Generally, Form 4506-T can be signed by any person who was a member of the partnership during any part of the tax period requested on line 9.

All others. See section 6103(e) if the taxpayer died, is insolvent, is a dissolved corporation, or is a trustee, guardian, executor, receiver, or administrator acting for the taxpayer.

Documentation. For entities other than individuals, you must attach the authorization document. For example, this could be the letter from the principal officer authorizing an employee of the corporation or the partners authorizing an individual to act for an estate.

Signature by a representative. A representative can sign Form 4506-T for a taxpayer only if the taxpayer has specifically delegated this authority to the representative on Form 2848, line 5. The representative must attach Form 2848 showing the delegation in Form 4506-T.

Privacy Act and Paperwork Reduction Act Notice. We ask for the information on this form to establish your right to gain access to the requested tax information under the Internal Revenue Code. We need this information to properly identify the tax information and respond to your request. You are not required to request any transcript(s) if you do request a transcript, sections 6103 and 6109 and their regulations require you to provide the information, including your SSN or EIN, if you do not provide this information, we may not be able to process your request. Providing false or fraudulent information may subject you to penalties.

Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to the states, the District of Columbia, and U.S. commonwealths and possessions for use in administering their tax laws. We may also disclose this information to other countries under a tax treaty, to federal and state agencies to enforce federal nontax criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism.

You are not required to provide the information requested on a form that is subject to the Paperwork Reduction Act unless the form displays a valid OMB control number. Books or records relating to a form or its instructions must be retained as long as their contents may become material in the administration of any Internal Revenue law. Generally, tax returns and return information are confidential, as required by section 6103.

The time needed to complete and file Form 4506-T will vary depending on individual circumstances. The estimated average time is: **Learning about the law or the form,** 10 min.; **Preparing the form,** 12 min.; and **Copying, assembling, and sending the form to the IRS,** 20 min.

If you have comments concerning the accuracy of these time estimates or suggestions for making Form 4506-T simpler, we would be happy to hear from you. You can write to:

ENFORCEMENT REPRESENTATION FORM NOTES

PLEASE READ CAREFULLY **BEFORE** COMPLETING FORM.

1 The information requested in this form is necessary to enable the Planning Authority to decide whether the representation has substance and foundation and to enable a valid Warning Letter issue if considered appropriate If incorrect addresses are given the issue of a valid Warning Letter will not be possible

2 It is important that as much information as possible is given so that a proper assessment of the representation may be made. If the space provided on the form is insufficient additional information may be given at the end of the form. Where information is inadequate the matter complained of may not be investigated and/or returned for further elaboration.

3 Please note that a Warning Letter will be issued to the person(s) named by you in the Representation Form based on the information given in the form. So it is important that the information given is accurate and detailed

4 All of the questions on the form must be fully answered

5 A site location map must be attached. Please ask to see the Planning Register Map at the main Planning Counter and identify the site thereon. Alternatively you may visit the local Council Office nearest to you to view the relevant map. If an application for Planning Permission has been made please quote Register Number

6 Unless the form is signed and name and address of person making representation is given the said representation will not be investigated

7 The Planning and Development Act, 2000 places time limits on the taking of Enforcement action by the Council. Accordingly, should legal proceedings be instituted in this matter, the person making the representation may be required to give evidence in court as to the date of commencement of the development. If this evidence is not forthcoming the Council may not be able to fully deal with this representation

8 Freedom of Information Act, 1997-2003 – Representations regarding unauthorised development constitute part of the Council's records for the purposes of the above acts. The Council will endeavour to maintain as confidential any representations made to it in confidence and in good faith. The Council cannot however, give absolute guarantees on this as requests under the Freedom of Information Act can be appealed by requesters to the Information Commissioner

To the Shareholder
Conklin Hruzek & Co., P.C.
And the Center For Public Company Audit Firms Peer Review Committee

We have reviewed the system of quality control for the accounting and auditing practice of Conklin Hruzek & Co., P.C. (the firm) applicable to non-SEC issuers in effect for the year ended June 30, 2005. The firm has informed us that it did not audit SEC issuers for the year ended June 30, 2005. A system of quality control encompasses the firm's organizational structure and the policies adopted and procedures established to provide it with reasonable assurance of complying with professional standards. The elements of quality control are described in the Statements on Quality Control Standards issued by the American Institute of Certified Public Accountants (the AICPA). The design of the system, and compliance with it, are the responsibilities of the firm. Our responsibility is to express an opinion on the design of the system, and the firm's compliance with that system based on our review.

Our review was conducted in accordance with standards established by the Peer Review Committee of the Center for Public Company Audit Firms and included procedures to plan and perform the review that are summarized in the attached description of the peer review process. Our review would not necessarily disclose all weaknesses in the system of quality control or all instances of lack of compliance with it since it was based on selective tests. Because there are inherent limitations in the effectiveness of any system of quality control, departures from the system may occur and not be detected. Also, projection of any evaluation of a system of quality control to future periods is subject to the risk that the system of quality control may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the system of quality control for the accounting and auditing practice applicable to the non-SEC issuers of Conklin Hruzek & Co., P.C. in effect for the year ended June 30, 2005, has been designed to meet the requirements of the quality control standards for an accounting and auditing practice established by the AICPA, and was complied with during the year then ended to provide the firm with reasonable assurance of complying with applicable professional standards.

DRESS DOWN DAYS

Occasionally during the school year there may be "dress down" days. This may coincide with fund raisers and/or holidays. Expectations on these days still include a tidy appearance (no holes) and appropriate messages. On these days sleeves and appropriate length of clothing are still expected. Shirts must not be lower than the collarbone in the front. Midriffs must be covered. Hats/caps/bandanas/scarves or other headwear are not allowed. Pajamas, sweats and athletic shorts are not permitted.

These guidelines do not cover every possible situation. Questionable attire or appearance will be referred to the Principal, one of the Deans of Students, or Assistant Principals for arbitration. Since styles of clothing and hair change rapidly, the administration reserves the right to restrict certain fashions that are inappropriate as well as interpret what is considered to be in poor taste or distracting to the learning environment.

Not worn inside building

- Sunglasses
- Baseball hats

Leadership & Public Service High School reserves the right to determine and insist upon a norm of appearance for its students. The primary norm is whether or not appearance is appropriate and aligned with our school's mission of preparing students for college and the workplace. Students are to dress in a proper manner that indicates they understand the difference between being dressed for a day at school and dressed for a recreational/social activity outside of school time.

If any question should arise as to what is appropriate the clothing should be brought (not worn) in and the administration will render advisement. In general, LPS relies upon the good judgment and cooperation of both students and their parents in the implementation of these norms.

For each infraction of the dress code, the following procedure should be followed:

- *Student received a Dress Code Violation from a teacher and comes directly to the office*
- *The student is given "loaner clothing" for the remainder of the day. The clothing which caused the infraction will be confiscated and kept until the next day.*
- *Students will return the "loaner clothing" the next day.*
- *Should students forget clothing or object to loaner clothing, they have the opportunity on that day for parent(s) to bring clothing to the school.*

When a dress code violation cannot be immediately corrected (e.g. inappropriate dress, hair length, etc.) the parents will be notified.

Re: APPLICATION FOR SALESPERSON

Dear Ms. Peters:

I am interested in applying for the position of salesperson at the Cool Threads Store, which was advertised in the June 10 edition of the Cooksville News.

As a high school student, I have developed organizational and communication skills through my involvement in school sports and by coaching junior soccer. I also understand how business operates through my specialization in economics and accounting. I have enclosed my résumé with further details.

I would enjoy being a part of your company and am available for an interview at your convenience. You can contact me at 555 1212 or leave a message at 555 1234. I look forward to hearing from you.

Sincerely,

(sign your name)

FAX MACHINE TEST

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero. this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax

Transmission Verification Report

You can use the Transmission Verification Report as proof that you sent a fax. This report lists the receiving party's name or fax number, the time and date of transmission, duration of transmission, number of pages sent, and whether or not the transmission was successful.

There are several settings available for the Transmission Verification Report:

- On: Prints a report after every fax you send.
- On+Image: Prints a report after every fax you send. A portion of the fax's first page appears on the report.
- Off: Prints a report if your fax is unsuccessful due to a transmission error. Off is the default setting.
- Off+Image: Prints a report if your fax is unsuccessful due to a transmission error. A portion of the fax's first page appears on the report.

1. Press **Menu 2 4 1**.

   Report Setting
   1.Transmission(Off)

2. Press ▲ or ▼ to choose On, On+Image, Off or Off+Image.
   Press **OK**.

3. Press **Stop/Exit**.

Notes

- If you choose On+Image or Off+Image, the image will only appear on the Transmission Verification Report if Real Time Transmission is set to Off. (See *Advanced User's Guide*: *Real Time Transmission*.)
- If your transmission is successful, OK will appear next to "RESULT" on the Transmission Verification Report. If transmission is not successful, NG will appear next to RESULT.

No. 3: Why We Are Sure That Jesus Is the Messiah—Luke 24:44; Gal. 4:4 (5 min.)

☐ **Service Meeting** Song 116

3 min: Start a Bible Study on the First Saturday Talk. Encourage all to share in starting Bible studies on the First Saturday in December. Briefly demonstrate how this may be done by using the back cover of *The Watchtower*.

18 min: Have You Tried It? Discussion. By means of a talk briefly review information from these recent articles in *Our Kingdom Ministry*, "Our Official Web Site—Designed to Benefit Us and Others" (*km* 12/12); Use Video in Your Teaching," and "Who Would Be Interested In This?" (*km* 3/13). Invite audience comment on how they have benefited from applying the suggestions in these articles.

10 min: Local needs.

Song 12 and Prayer

Announcements

■ **November:** Special campaign distribution of *Kingdom News* No. 38. If the congregation works all of its territory or places its entire supply of *Kingdom News*, publishers should offer *What Does the Bible Really Teach?* or *Would You Like to Know the Truth?* **December:** *What Does the Bible Really Teach?* or *Would You Like to Know the Truth?* **January and February:** Feature one of the following 32 page brochures: *Good News From God*, *Listen to God*, or *Listen to God and Live Forever*.

Sample Presentations

To Start Bible Studies on the First Saturday in December

"Many people are looking for Jesus to return. If Jesus came back, what is one thing you would like him to do?" Allow for response. Show the back of the December 1 *Watchtower*, and consider together the material under the first question and at least one of the cited scriptures. Offer the magazines and arrange to return to discuss the next question.

—WATCHTOWER, December 1

"Life is so busy these days that it can be a challenge to think about God. Do you think it's important to have God in our life? [Allow for response.] In his famous Sermon on the Mount Jesus said that we need spiritual values to be truly happy. [Read Matthew 5:3.] This magazine outlines three reasons why we need God."

Awake! December

"Most of us form opinions based on what we hear or read in the news media. Do you think that the news we receive is accurate and truthful? [Allow for response.] The Bible recommends caution when it comes to trusting what we hear. [Read Job 12:11.] This magazine gives some tips to help us test out the words we hear and read."

Field Service Highlights

As of May 2013 there were 223 sign-language congregations and 58 groups in the 11 geographic locations cared for by the United States branch office. These are in 12 sign-language circuits. On average, 5 to 6 live studies are conducted each month in the sign language field. Additionally, 15 sign-language congregations in Canada receive regular visits from a U.S. traveling overseer fluent in ASL. Certainly these efforts are a fine expression of a desire to serve Jehovah God.—Ps. 113:1.

Hail Mary:

Today begins the 90th Anniversary of the apparition of the Virgin of Fatima :

When you receive this email say a Hail Mary and ask for a special favor.

"Hail Mary, full of grace. The Lord is with thee. Blessed art thou among women and blessed is the fruit of thy womb, Jesus. Holy Mary, Mother of God, pray for us sinners, now and at the hour of our death, Amen.? (your request)

Please do not break the Novena , send it to 12 people you think deserve justice, peace, love, health, prosperity and truth. When you are down to nothing, God is up to something. This has been traveling since 5/13/07!

Alfredo Sauce

Servings: 6-7

1 Pound Margarine, melted
3 7/8 Quarts Whipping Cream
1 1/2 Tablespoons Salt
1/2 Teaspoon Pepper
1/2 Teaspoon Ground Nutmeg
1 1/2 Pounds Parmesan Cheese, shredded
1/3 Cup Fresh Parsley, chopped

Place margarine and cream in heavy skillet over medium-low heat.
Cook, stirring constantly until blended and mixture bubbles for 2 minutes.
Stir in salt, pepper and nutmeg
Reduce heat
Gradually stir in Parmesan cheese until thoroughly blended and fairly smooth
Increase heat again if necessary, but don't let sauce bubble or the cheese will become lumpy and tough
Pour sauce over cooked noodles and toss lightly until sauce is slightly thickened and noodles are evenly coated
Sprinkle with parsley
Serve immediately at 160 degrees.

A Local Area Network or ***LAN*** is a collection of computers, printers and other devices connected to share information

The most common LAN uses Ethernet and TCP/IP to provide the connection.

The Internet uses ***TCP/IP*** for communication. A basic requirement of TCP/IP is that all devices have a unique IP Address similar to the way telephone numbers are unique.

Most LANs are protected from direct exposure to the Internet by a **Firewall** treating devices on the LAN to use local-only IP addresses.

IP addresses can be allocated by a ***"DHCP server"*** which is built into a router. A valid IP address is obtained from the ***DHCP Server*** when you connect your Xerox product to the LAN.

Introduction of Quick Utility Toolbox

Quick Utility Toolbox is a shortcut menu that lets you access functions you want to use with one click

After installing utilities compatible with Quick Utility Toolbox, they will be added to this menu

The Quick Utility Toolbox provides a convenient way to quickly launch added utilities for making machine settings and doing other management tasks

* The screen display varies depending on your printer

Online Manual

The Online Manual is an instruction manual on the website. It contains the latest information needed for operations such as printing. You can also use it for troubleshooting when problems arise

* An internet connection is necessary

We Recommend Using Canon Genuine Inks

Canon genuine consumables (inks / printing paper) are developed especially for Canon ink-jet printers. We recommend using Canon genuine consumables to maintain printer performance and ensure consistency

The ACT

2014–2015 Fee Waiver

The ACT Fee Waiver Program provides [illegible] for which payment is required for the ACT [illegible] entrance. Only a limited number of fee waivers are available by ACT each year, beginning in the fall. Once funds have been exhausted, requests for waivers will be denied. The following conditions apply in using a fee waiver:

- THIS WAIVER IS VALID ONLY IF SUBMITTED BY AUGUST 31, 2015.
- The fee waiver covers the test fee for the test option you select, either the ACT (No Writing) or the ACT Plus Writing.

[illegible] fee, additional college-of-choice, test date-test center, or test option changes; residual testing; the standby fee; or other services. Fees are listed at www.actstudent.org.

- Eligible students may use a maximum of [illegible] separate fee waivers.
- The waiver is used once you register or submit your standby request, even if you do not test on the requested date.
- You cannot receive a refund for a test fee if you already paid.

STUDENT DIRECTIONS:

- **Registering on the web:** Enter the serial number from the top-right corner of this form on the payment screen. Then follow the on-screen directions to "apply" the waiver to validate it. (If you select any additional services, register during the late period, or submit a standby request, enter a credit card to pay the additional fees.) Finally, you must click "Submit" to complete your registration.
- **Registering by mail:** Enter the serial number from the top-right corner of the form in Block W of the registration folder. You must return the completed and signed waiver with your completed registration folder.
- **Requesting Special Testing.** Return the completed and signed waiver with your completed *Request for ACT Special Testing*. Make sure to mark your preferred test option on the request form.

IMPORTANT: To take full advantage of the waiver, you must follow through and test on your registered test date.

ELIGIBILITY REQUIREMENTS. You must be a high school student who meets At Least *All* of the following requirements:

1. Currently enrolled in the **11th** or **12th grade**.
2. Either a United States citizen or legal [illegible] the United States, US territories, or Puerto Rico.
3. Meet one or more of the indicators of **ECONOMIC NEED** listed below (check all that apply).
   - ☐ Enrolled in a federal free or reduced-price lunch program at school.
   - ☐ Involved in a program for the economically disadvantaged (for example, a federally funded program such as Gear Up or Upward Bound).
   - ☐ Resides in a foster home, as a ward of the state, or is homeless.
   - ☐ Family receives low-income public assistance or lives in federally subsidized public housing.
   - ☐ Family's total annual income is at or below the USDA levels for free or reduced-price lunches listed in the chart to the right.

Number in Family/Household (including student)	Total Annual Income Before Taxes (in last calendar year)
1	$21,590
2	$29,101
3	$36,612
4	$44,123
5	$51,634
6	$59,146
Each additional	plus $7,511 each.

FAX TRANSMITTAL

TO: **1-888-hpfaxme** (1-888-473-2963)

From HP Customer

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both:

To test the send functionality of your fax machine, send a one-page fax to 1-888-877-1655 (a toll-free number in the United States.) When it's finished transmitting, point your web browser to Fax Toy — it's a fun web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine, point your web browser to FaxZero; this site lets you send faxes for free to anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully, it will automatically answer and spit out the test fax.

If you do have access to a fax machine — even a borrowed one — an easy workaround is to let it take the call, see who the fax is from, and call or fax them back to explain the problem. If you don't have a fax machine but do have Caller ID, it should be easy to identify where the fax is coming from; call or fax the sender's number and ask them to cut it out. Dialing *69 isn't likely to help; you'll probably just call the fax machine back.

Calls from fax machines usually come in pairs or threes, because after the fax machine fails, it tries again a few minutes later. Use this to your advantage: once the first call happens, forward your incoming calls to a friend's fax line (or to a free fax service like eFax.) When that second call comes, it will print out on the friend's machine.

Nothing Else Matters

So close no matter how far
Couldnt be much more from the heart
Forever trusting who we are
And nothing else matters

Never opened myself this way
Life is ours we live it our way
All these words I dont just say
And nothing else matters

Trust I seek and I find in you
Every day for us something new
Open mind for a different view
And nothing else matters

Never cared for what they do
Never cared for what they know
But I know

So close no matter how far
Couldnt be much more from the heart
Forever trusting who we are
And nothing else matters

Never cared for what they do
Never cared for what they know
But I know

Never opened myself this way
Life is ours, we live it our way
All these words I dont just say
And nothing else matters

Trust I seek and I find in you
Every day for us something new
Open mind for a different view
And nothing else matters

Never cared for what they say
Never cared for games they play
Never cared for what they do
Never cared for what they know
And I know

So close no matter how far

Memorandum

Attn: American Citizen

From: Nixon Re-election Campaign

Re: "You can't lick our Dick", The Nixon re-election campaign

Dear American Citizen,

My name is Russell Johnson and I'm writing to you today to urge you to vote for Richard "Dick" Nixon. President Nixon is offering real leadership for the 70's. I, as well as the President look forward to your vote and 4 more years in office. Remember, if you don't vote for Nixon, you are a communist and hate America

/sbin/elilo bzImage	Execute the ELILO Linux boot utility on partition bzImage
fdformat /dev/fd0H1440	Format the floppy disk in device fd0
tar -cMf /dev/fd0	Backup the contents of the current directory and sub-directories to multiple floppy disks
tail -f /var/log/messages	Display the last 10 lines of the system log
cat /var/log/dmesg	Display the file containing the boot time messages useful for locating problems. Alternatively use the dmesg command.
*	wildcard represents everything, eg. cp from/* to will copy all files in the from directory in the to directory
?	Single character wildcard eg. cp config ? /mnt will copy all files imagining with the name config in the current directory to the directory named /mnt.
[xyz]	Choice of character within the eg. ls [xyz]* will list all files in the current directory starting with the letter x, y or z.
[from-to]ghi	As the file concept, next in single name mode. This is useful if you have forgotten your password. Boot in single user mode then run the passwd command.
pw	Last command processor
kill 1205	Kill a specific process eg. kill 1205

Configuration files and what they do

/usr/modules	System wide environment variables for all users
/etc/fstab	List of filenames and their associated mount points. Edit the file to add extra IDE partitions and floppy drives at startup

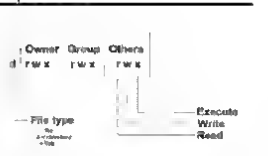
/etc/rc.d/rc.local	Boot script that is executed at the end of login process. Similar to autoexec.bat in MS-DOS
/etc/HOSTNAME	Contains full hostname including domain.
/usr/sbin/*	There are 4 directories that conveniently contain all scripts within the directory at intervals of hour, day week or month.
/etc/hosts	A list of all known host names and IP addresses on the Network
/usr/httpd/conf	Parameters for the Apache web server
/etc/inittab	Specifies the run level the the machine should boot into.
/etc/resolv.conf	Define IP addresses of DNS servers.
/etc/smb.conf	Config file for the SAMBA server. Allows file and print sharing with Microsoft clients.
/X11R6/bin/	Define configuration for startup X-applications relative to your /home directory
/etc/X11/fvwm2/.fvwm2rc	Config file for X-Windows
~/.xinitrc	Defines the windows manager loaded by X. relative to user's /home directory

File permissions



If the command ls -l is given, a long list of file names is displayed. The first column in the list details the permissions applying to the file. It is preferable in addition for a owner, group or other it is represented by eg drwxr-x

Read 4	File permissions are altered by giving the chmod command and the appropriate level code for each user type eg
Write 2	chmod 7 5 4 filename will make the file called filename rwx-w-x for the owner
filename 1	r-x for the group and r for others.
chmod 7 5 5	Full permissions for the owner read and execute access for the group and others
chmod +x filename	Make the file called filename executable to all users

What is Lorem Ipsum? (3)

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Favorites (Cont.)

The next day, my teacher asked for our favorite live animal.

I said, "Chicken."

"Why?", asked my teacher.

"Because you can fry 'em!"

She sent me back to the principal's office. He laughed, and said not to do it again.

Today, my teacher asked, "Which famous person do you admire?"

I answered, "Colonel Sanders!"

After this, Quick Menu opens automatically

Quick Menu is a shortcut menu that lets you access functions you want to use with one click.
You can access CREATIVE PARK PREMIUM the Online Manual etc.

* The screen display varies depending on your printer

CREATIVE PARK PREMIUM

You can download popular characters or artwork of famous artists and print them
CREATIVE PARK PREMIUM is a premium content service available exclusively to customers who use genuine Canon ink for all colors.

Online Manual

The Online Manual is an instruction manual on the website. It contains the latest information needed for operations such as printing. You can also use it for troubleshooting when problems arise.

* An Internet connection is necessary

We Recommend Using Canon Genuine Inks

Canon genuine consumables (inks / printing paper) are developed especially for Canon ink-jet printers. We recommend using Canon genuine consumables to maintain printer performance and ensure consistency

Random Stuff Sent From Your Fax Machine
Fax something interesting to 1-510-545 0990

To the right are pages that folks have faxed us recently. Click any thumbnail to see the large version and rate it for interestingness.

You can fax something interesting to 1-510-545-0990 (your boss will never notice ... maybe) and it should appear here within a couple of minutes. (The number is in Northern California, USA. Long distance charges may apply.) Keep it clean & legal...

Fax single page documents with no cover sheet. If you fax more than one page, only the last page will appear here. We try to snip off the top few pixels of the page where your company name and fax number should appear, but make no promises that this will actually work.

Deciding Which Fax Receive Mode to Use

1647-01R

Before configuring the fax settings, determine which receive mode best suits your intended use.

Intended use	Receive mode	
Use fax only/Never use telephone	<None> This setting is for when you want to use the machine exclusively for receiving faxes and you do not want to use the telephone.	
Mostly use telephone/Almost never use fax	<Manual> Connect your telephone to the machine. This setting is for when you mostly want to use the telephone. You can receive incoming faxes manually.	
Use both fax and telephone	Use answering machine	<Answering Machine> Connect your answering machine. Callers can record a message if they call while you are away from the telephone. The machine automatically receives incoming faxes.
	Use standard telephone	<Fax/Tel (Auto Switch)> Connect your telephone. The machine automatically receives incoming faxes, and the telephone rings for incoming calls.

NOTE

- Depending on the type of telephone connected to it, the machine may not be able to send or receive faxes properly.
- If you have subscribed to a Distinctive Ring Pattern Detection (DRPD) service provided by your telephone company, <DRPD> is also available for the receiving mode.

Bidanit Installation Instructions

IMPORTANT: The Bidanit is designed to be assembled without tools. Please hand tighten all connections for the Bidanit. DO NOT USE TOOLS BECAUSE IT WILL DAMAGE THE CONNECTIONS!

Please use the white Teflon tape included to wrap ALL joints of the metal that screw and connect with each other. This will ensure that all joints are properly secured from any possible leakage. If you purchase any additional piping we recommend using Teflon tape on those joints as well.

Step 1. Slide the spout into the hole of the Bidanit. Make sure that the spray is correctly aligned at the center pointing outward.

Step 2. Slightly screw the screws of the toilet seat. Allow the Bidanit to slide underneath. Then screw them in the edge of the toilet so that the two brass seats are seated under the screw heads. Then tighten the seat seat screws.

Step 3. Close the metal lever and flush the tank to empty the remaining water in the tank.

Step 4. Connect the metallic adaptor to the end of the T-adaptor using washers and Teflon tape. Refer to the pictures at each connection for the fitting need of the T-adaptor.

Step 5. Disconnect the flexible water hose from the flush tank. Prepare a cold hose for the additional attachments.

Step 6. Connect the T-adaptor to the flush tank using the Teflon tape and then another

Step 7. Connect the flexible water hose to the bottom of the T-adaptor using the Teflon Tape

Step 8. Connect the Bidanit hose to the T-adaptor using the washer and Teflon Tape

Step 9. Open all the valves of the Bidanit hose to the Step 1 pipe using the washer included.

Step 10. Open the water source. Increase or turn the spray to use the bidet. Adjust to your level of comfort using the valve.

Section 6
WEATHER DEPICTION CHART

The weather depiction chart, Fig. re 6-3 a computer-generated (with human frontal analysis) from METAR reports. The weather depiction chart gives a broad overview of the observed flying category conditions at the valid time of the chart. The chart begins at 0Z each day, is transmitted at 3-hourly intervals, and is valid at the time of the plotted data.

PLOTTED DATA

Observations reported by both manual and automated observation locations are plotted on the chart. The right bracket ( ]) indicates the present weather information was obtained by an automated system only. The plotted data for each station are total sky cover, cloud height or ceiling, weather and obstructions to vision, and visibility. If the data are not the chart are crowded together, the weather, visibility, and cloud height may be moved up to 90 degrees around the station for better legibility. When reports are frequently updated, as at some automatic stations (every 20 minutes) or when the weather changes significantly, the observation used is the latest METAR received instead of using the one closest to the stated analysis time.

TOTAL SKY COVER

The amount of sky cover is shown by the six-sun circle shaded as in Figure 6-1

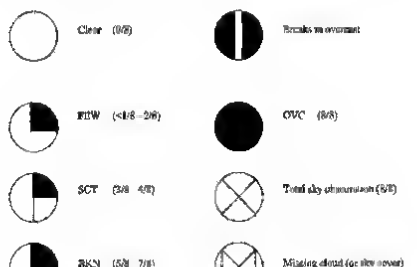

Figure 6-1 Total Sky Cover.

Fax Address Test	PASS
Fax Connected to Active Telephone Wall Jack	PASS
Phone Cord Connected to Correct Port on Fax	PASS
Using Correct Type of Phone Cord with Fax	PASS
Dial Tone Detection	FAIL
Fax Line Condition Test	FAIL

Your fax has been a resounding success!

A dial tone was not detected.

Please check the items below then run a test fax.

Please ensure you are using the fax line cord supplied in the box.

Disconnect any equipment (faxes or phones) that are sharing the line (including extension phones), connecting them directly to the HP device.

From the wall, plug a telephone or phone cord directly into the line and the telephone. Ensure it is connected to the line directly to the wall jack.

If the Fax Line Condition test fails, ensure your phone cord is connected to the fax line and test again.

If your HP device is connected to a Private Branch Exchange (PBX) rather than the public telephone system, the Dial Tone Detection may fail.

Remember, you should be able to successfully send and receive faxes.

Refer to your User Guide for more information on the tests and settings.

Addresses on how to enter this text:
Step 1: Press the "Setup" button.
Step 2: Choose the "Tools" menu.
Step 3: Choose the "Run Fax Test" item

one year, and let your contribution and the related income grow tax-free in the future. Here's what it would take to make it work:

- This year's large income was atypical and you expect next year's income to be low enough to allow you to make a Roth contribution
- Your Roth IRA earned enough to justify paying the 6 percent excise tax for one year
- You pay the 6 percent tax on the contribution (the income is not subject to the tax) the year it was made. Use Part IV of Form 5329, Additional Taxes on Qualified Plans (Including IRAs) and Other Tax-Favored Accounts, to report the "excess" contribution and compute the tax
- You carry forward the "excess" contribution to the following year

For more information, go to IRS Publication 590, Individual Retirement Arrangements (IRAs).

Setup for Fax Reception

Read the manual after finishing the operation of Getting Started.
To use the fax features of the machine, you can make the basic settings through the easy setup.

Using Easy setup

Press the **MENU** button, then select in the order of **Setup** > **Device settings** > **FAX settings** > **Start Easy setup** or **Easy setup** > **OK** button or **Start setup**.

Use the ▲▼◀▶ button to select the item that you like, then press the **OK** button.

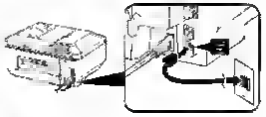
Easy setup starts up.
Follow the on-screen instruction to complete the settings in accordance with the operating environment.

Complementary Information about Fax Setting Using Easy setup

Connect to a Telephone Jack

Use a commercially available telephone cable (RJ11 supported) to connect the machine to a telephone line.

The connector is labeled **LINE** on the back of the machine.

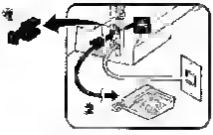


- Above is connection method as shown in this figure. For other connection methods, refer to the Online Manual.
- **Users in Europe:** If you prepare your own telephone line cable, be sure it is a 6-wire telephone line cable.

Connect a Telephone

When connecting a telephone or an answering machine, remove the cap, then connect a telephone or an answering machine with a telephone line cable.

The connector is labeled **EXT.** on the back of the machine.



- Do not use a telephone jack like this one.
- **Users in UK:** Use a BT adaptor for connection as required.

Enter the Basic Information (Settings and Operations guide)

Refer to the **Online Manual** to enter the settings.

Enter the DRPD or Network switch settings

Refer to the **Online Manual** to enter the settings.

- DRPD is available only in US and Canada.
- Network switch may not be available depending on the region or country.

For the details of other settings, refer to the **Online Manual**.

Quality, Service & Value

Imagine finding a landscape contractor that can consistently deliver on all three of these. For more than 21 years JFD Landscapes, Inc. has been providing quality, service and value to our clients throughout the Chagrin Valley area.

As all businesses will tell you, these are tough economic times we are facing. We have loyal dependable employees that depend on JFD for their financial well being. We take that responsibility seriously. With this is in mind, we have decided to kick off our spring sales by rolling back our pricing for a limited time.

I am sure you have landscape projects that you have dreamed about doing or know someone who does, but always thought it was too expensive. Well now is the time. Our price reduction includes Maintenance as well as Landscape Construction work.

It does not matter if it is a Spring Clean-up, weekly maintenance, lawn fertilization, landscape design work or mulch. The list is endless. Install a patio, replace your walk with pavers, put in low-voltage landscape lighting, upgrade your plantings, enjoy a stone fire pit. How about a waterfall with or without a pond? A synthetic putting green will keep your game strong all year round. Are your timber retaining walls full of bees or falling down? Replace them with a stone wall. **Now is the time to act.**

You get the idea, don't delay. Visit our website www.jfdlandscapes.com and go to our Contact Us page or call 440-543-9644 to schedule a ***no cost*** consultation. This reduced pricing is valid on all signed agreements received by April 30, 2010.

How to use keyboard-layout-editor.com

Getting Started

- Try adding some of the different keys from the palette at the top of the page. It will give you a good idea of the editor's capabilities.
- Set a key's color by clicking on it. Then click on the color you'd like from the palette.
- You can select multiple keys by holding down Ctrl and clicking on them. You can also do a click-and-drag selection by Ctrl-clicking in an area. You can also do drag selection for single and multiple keys while they're selected.
- Try the keyboard shortcuts listed below. They make entering large properties much faster.
- You can save your layout to the server by clicking the "Save" button on the top bar.
- You can save your layout locally by bookmarking the "Permalink" (or the import string) in your bookmarks.

Keyboard Shortcuts

?	Show this help dialog
↑ ← ↓ →	Move the selected keys
Shift + ↑ ← ↓ →	Resize the selected keys
Ctrl + ↑ ← ↓ →	Move the color selection for the selected keys
PgUp / PgDn	Change the angle of rotation for the selected keys
Tab	Add a new key
Del	Delete the selected keys
Esc	Edit the text of the selected key
J / K	Select the previous / next key in the array
Ctrl-S	Save your layout on the server
Ctrl-A / Esc	Select / Deselect all keys
Ctrl-Z	Undo
Ctrl-Shift-Z or Ctrl-Y	Redo
Ctrl-X or Shift-Del	Cut the selected keys
Ctrl-C or Ctrl-Ins	Copy the selected keys
Ctrl-V or Shift-Ins	Paste keys from the clipboard

You can think most of these keys make sense, but the keyboard editor has a few quirks.

Tips on Managing Your M&T Bank Personal Checking Account

This section of the booklet will help you manage your account and avoid potential fees in the future. These tips are standard to assist you in managing your new consumer checking account. It is not intended to replace the account disclosures that you received at account opening. Be sure to read and retain for your records all of the account disclosures and other account opening documentation we've provided to you.

Information to Keep in Mind When Making a Deposit

When you make a deposit into your M&T checking account, you may want to use it or money right away to get cash, write checks to pay bills or make a purchase. But as is the case at all banks, how quickly you can access the money depends on the type of deposit you make (for example, electronic direct deposit, check or cash) where you make your deposit (at a branch or ATM) and the timing of your deposit. In other words, how when, where and what you deposit will impact when funds become available for your use.

For specific information about when funds from your account become available for use, please refer to our **Availability Disclosure for Consumer Deposit Accounts**. Here are some highlights:

- **Check Deposits:** Paper check funds from a check deposit do not become available for use, regardless of the type of account you have and when the check is drawn. Our Availability Guides, for Consumer Deposit Accounts, will help you determine how soon your funds will be available for withdrawal or to pay checks written on your account.
- **"Available Balance" vs. "Total Balance":** The funds that are available for your use in writing checks or making other withdrawals are called the "available balance." Your total balance also includes any funds in your account that have been deposited into the account but have not yet been made available for your use.
- **ATM Deposits:** Funds from a deposit made at an ATM owned or operated by M&T Bank will be made available under the same availability rules that apply to a deposit made in person at one of our branches.
- **Business Day "changeover" or "cut-off":** Most M&T Bank branches close or change over from one business day to the next between 2:00 and 3:00 p.m. The specific cut-off time is posted in each M&T branch. Deposits made at a branch after its cut-off time will be treated as deposited on the next business day. The availability of the deposit is measured starting with the business day that M&T considers the deposit made. For example, if you deposit a check after a branch's cut-off time, we measure the period of time for determining availability beginning on the first business day after you deposited the check.
- **Business Days:** M&T's business days are Monday through Friday, excluding federal holidays.
- **New Accounts:** If you are a new M&T customer, for the first 30 days after your checking account is opened, it will generally take longer for certain types of deposits to be made available for your use.
- Funds from an electronic direct deposit are available for your use on the same day that we receive the deposit. This can be a convenient and cost-effective way to get access to your money. Contact your employer's payroll department to take advantage of this convenient service.

T 1 B6—Apartment lease 3-4 hourly meeting point English-French 3-4-5

PREPARED BY ARNOLD MANDELL, C.A.H.

LEASE AGREEMENT

© 1958 BY JULIUS BLUMBERG, INC. PUBLISHER, NYC 10013

The Landlord and Tenant agree to lease the Apartment at the Rent and for the Term stated on these terms:

LANDLORD: .....

Address for Notices.....

TENANT:.....

.....

Apartment (and garage, if any) ..... at .....

Lease date:	Term	Yearly Rent	$
..... 19....	beginning ..... 19....	Monthly Rent	$
	ending ..... 19....	Security	$

Rider Additional terms on .....page(s) initialed by the parties is attached and made a part of this Lease.

1 Use

The Apartment must be used only as a private Apartment to live in and for no other reason. Only a party signing this Lease and the spouse and children of that party may use the Apartment.

2. Failure to give possession

Landlord shall not be liable for failure to give Tenant possession of the Apartment on the beginning date of the Term. Rent shall be payable as of the beginning of the Term unless Landlord is unable to give possession. Rent shall then be payable as of the date possession is available. Landlord will notify Tenant as to the date possession is available. The ending date of the Term will not change.

3. Rent, added rent

The rent payment for each month must be paid on the first day of that month at Landlord's address. Landlord need not give notice to pay the rent. Rent must be paid in full and no amount subtracted from it. The first month's rent is to be paid when Tenant signs this Lease. Tenant may be required to pay other charges to Landlord under the terms of this Lease. They are to be called "added rent." This added rent is payable on rent, together with the next monthly rent due. If Tenant fails to pay this added rent on time, Landlord shall have the same rights against Tenant as if Tenant failed to pay rent. Payment of rent in installments is for Tenant's convenience only. If Tenant defaults, Landlord may give notice to Tenant that Tenant may no longer pay rent in installments. The entire rent for the remaining part of the Term will then be due and payable.

4. Security

Tenant has given Security to Landlord in the amount stated above. If Tenant fully complies with all of the terms of this Lease, Landlord will return the Security after the Term ends. If Tenant does not fully comply with the terms of this Lease, Landlord may use the Security to pay amounts owed by Tenant, including damages. If Landlord sells or leases the Building, Landlord may give the Security to the buyer or lessee. Tenant will look only to the buyer or lessee for the return of the Security

5. Services

Landlord will supply (a) heat as required by law, and (b) hot and cold water for bathroom and kitchen sink. Stopping or reducing of service(s) will not be reason for Tenant to stop paying rent, to make a money claim or to claim eviction. Damage to the equipment or appliances supplied by Landlord caused by Tenant's act or neglect, may be repaired by Landlord at Tenant's expense. The repair cost will be added rent.

Tenant must pay for all electric, gas, telephone and other utility services used in the Apartment and arrange for them with the public utility company

Landlord may stop service of the plumbing, heating, elevator, air cooling or electrical systems, because of accident, emergency, repairs, or changes until the work is complete. If unable to supply any service because of labor trouble, Government order, lack of fuel supply or other cause not controlled by Landlord, Landlord is excused from supplying that service. Service shall resume when Landlord is able to supply it.

2 In the **Print** dialog box, click **Preferences**, **Properties**, **Options**, or **Setup** (depending on the program or printing system).

The **Printing Preferences** dialog box opens.

To access **Printing Preferences** when a document is not open:

1 In Windows XP, click **Start**→ **Settings**→ **Start**→ **Control Panel**→ **Printers and Other Hardware**→ **Printers and Faxes**.

In Windows 2000, click **Start**→ **Settings**→ **Printers**.

2 Right-click the printer icon, and then select **Printing Preferences**.

NOTE: Changes made to the printer settings from the **Printers** folder become the default settings for most programs.

Printing Preferences Tabs

Tab	Options
Print Setup	Quality — Select **Automatic**, **Draft**, **Normal**, or **Photo** depending on your desired output quality. **Draft** — the fastest option but should not be selected if you have a photo cartridge installed.
	Media Type — Allows you to select paper type manually, or have the printer sensor detect the paper type automatically.
	Paper Size — Select the size and type of paper.
	Print in black and white — Print your color images in black and white to save the ink in your color ink cartridge. **NOTE:** You cannot select this setting if you have selected **Color Cartridge** for **Black Printing**.
	Borderless — Print borderless photos.
	Orientation — Select how the document is arranged on the printed page. You can print using **Portrait** or **Landscape** orientation.
	Multiple Copies — Customizes how the printer prints several photocopies of a single print job: **Collated**, **Normal**, or **Print Last Page First**.
Advanced	Select Printing — Select the print side of both sides of the paper.
	Layout — Select **Normal**, **Banner**, **Mirror**, **N-up**, **Poster**, **Booklet**, or **Borderless**.
	Automatic Image Sharpening — Automatically select the best image sharpening level based on image content.
	More Options — Allows you to specify **Appearance Mode** and **Complete Admin** settings.

New England Crab Rolls

Ben Aspell | August 2008

Creamy lobster salad heaped onto a buttered, toasted hot dog bun is the quintessential summer sandwich in northeastern shore towns. This is an equally delicious and more economical variation.

Serve with Potato chips, sweet pickles and carrot and celery sticks. Dessert: Blueberry pie and vanilla ice cream.

Yield: Makes 2 servings

INGREDIENTS

5 tablespoons mayonnaise
1 tablespoon fresh lemon juice
1 teaspoon grated lemon peel
1/8 teaspoon cayenne pepper
3/4 pound fresh crabmeat, picked over
3 tablespoons finely chopped green onions

2 tablespoons (1/4 stick) butter, room temperature
4 hot dog buns, sides split open
4 red leaf or Bibb lettuce leaves

DIRECTIONS

Whisk together mayonnaise, lemon juice, lemon peel, and cayenne pepper in a bowl. Mix in crabmeat and chopped green onions. Season crab salad to taste with salt and pepper.

Spread butter on insides of hot dog buns. Warm large skillet over medium heat 1 minute. Place buns, buttered side down, in preheated skillet and toast until golden, about 3 minutes. Place 2 toasted buns on each of 2 plates. Place 1 lettuce leaf inside each bun. Divide crab salad among buns and serve.

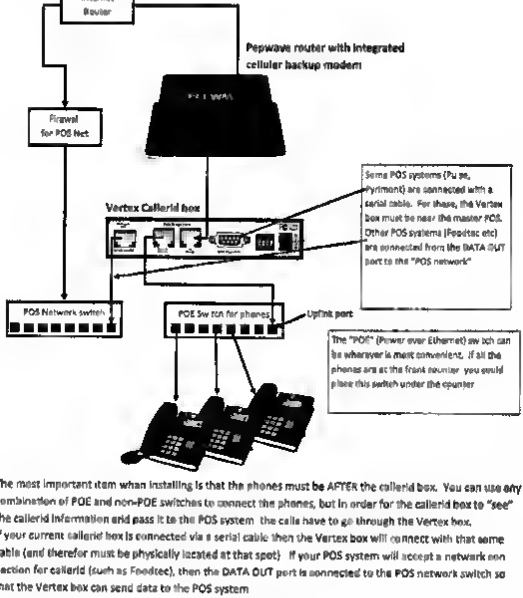
PizzaCloud service with cellular Internet backup, not protecting the POS system connection



The most important item when installing is that the phones must be AFTER the callerid box. You can use any combination of POE and non-POE switches to connect the phones, but in order for the callerid box to "see" the callerid information and pass it to the POS system the calls have to go through the Vertex box.
If your current callerid box is connected via a serial cable then the Vertex box will connect with that same cable (and therefor must be physically located at that spot) If your POS system will accept a network connection for callerid (such as Feedtec), then the DATA OUT port is connected to the POS network switch so that the Vertex box can send data to the POS system

HP Fax Products - Testing Your HP Fax Machine with the HP Fax Test Service

Introduction

This document will assist you in testing your HP Fax machine using the HP Fax Test Service.

Print this document for easy reference by clicking the **Printable Version** link in the upper right corner of this page.

Test your fax machine

To test the capability of your fax machine, follow the directions below.

> **NOTE:**
>
> Be sure that your phone number is not Caller ID blocked by your telephone company prior to attempting to send and receive a fax. Pressing *82 before dialing the toll free number will unblock the Caller ID blocking feature in most areas. Other phone company services can prevent you from receiving a fax, including voice mail, call blocking, or call privacy features.

> **NOTE:**
>
> Whenever troubleshooting a fax issue, it is good practice to set the ***Automatic Reports*** option to **Every Error** before attempting a test fax. This way, even if the sent fax fails, an error code will be generated that will guide you in future troubleshooting. This option is available in different places on different products; consult the product *User's Guide* for specific steps.

How Can I Test My Fax Machine?

I just hooked up a new fax machine and I'd like to test it, just to make sure it works. How can I do that?

Presumably, you want to test your fax machine by sending a fax from it and receiving a fax with it. Here's how to do both.

To test the send functionality of your fax machine, send a one-page fax to 1-855-330-1239 (a toll free number in the United States.) When it's finished transmitting, point your web browser to Fax Test — a web site that displays whatever is faxed to that number. Within a minute, your fax should appear on the site. Click the thumbnail to see a large version.

To test the receive functionality of your fax machine point your web browser to FaxAgain this site lets you send faxes to you in anywhere in the United States and Canada. Within a few minutes, your fax machine should ring — hopefully it will automatically answer and spit out the test fax.

Lesson 7: The First, Second, and Third Commandments

Objectives: At the end of the session the student will be able

a) to recall the scripture story of Moses and the ten commandments,
b) to discover that the ten commandments summarize the law of God written on every human heart
c) to recognize that the first three form the foundation of our life with God.
d) to identify the precepts of the church as practical ways to live our relationship with God...and
e) to explain the importance of identifying and rejecting idols or false gods.

Review

Last session, we learned about the grace of the Holy Spirit - the freely given undeserved gift of Divine life shared with us. Through the merits of Paschal Mystery- Christ's passion, death, resurrection, and ascension- we receive in Baptism a one-time-undeserved gift of **sanctifying grace** that marks and claims us permanently as children of God and heirs of heaven. Through **actual grace**...we continue to live a life if friendship with God. This week we will learn how God's Spirit guides us in our life on earth how to continue a good relationship with Him and with others so we can continue our path to heaven. We will learn about the Ten Commandments and particularly about the first three commandments.

The Story of Moses

Do you remember that after the Hebrews left Egypt...they wandered in the desert aimlessly until Moses went up the mountain to ask God for directions? The Ten Commandments (AKA Decalogue meaning ten words) states the foundation of our life with God and with one another.

The Law of God is written in the hearts of all human beings- this is called natural law which becomes the basis of all human law- moral law and civil law. This is why we say that the Ten Commandments are the Laws of the Human Heart.

Jesus and The Law

When God gave the Ten Commandments to the Hebrews through Moses, God prepared His people for the revelation of Jesus Christ. Jesus' birth and life on earth was the fulfillment of the promise of God to redeem mankind- this is why we refer to Jesus as the Word of God. When Jesus lived on earth...he always stressed in his teachings to go back to the law of their heart that God planted in each one of his creation- to love God above all and to love one another. Then he gave us the Holy Spirit to help us live the life that will keep us in the path leading to perfect happiness.

First Commandment

"I am the Lord your God. You shall not have strange gods before me."

This commands us to set our priorities in life straight. Know that God is God and that we are not. It is violated in these ways:

1) atheism
2) idolatry
3) sacrilege

Jabberwocky
BY LEWIS CARROLL

'Twas brillig, and the slithy toves
Did gyre and gimble in the wabe
All mimsy were the borogoves,
And the mome raths outgrabe

"Beware the Jabberwock, my son!
The jaws that bite, the claws that catch!
Beware the Jubjub bird, and shun
The frumious Bandersnatch!"

He took his vorpal sword in hand,
Long time the manxome foe he sought—
So rested he by the Tumtum tree
And stood awhile in thought.

And, as in uffish thought he stood,
The Jabberwock, with eyes of flame,
Came whiffling through the tulgey wood
And burbled as it came!

One, two! One, two! And through and through
The vorpal blade went snicker-snack!
He left it dead, and with its head
He went galumphing back

"And hast thou slain the Jabberwock?
Come to my arms, my beamish boy!
O frabjous day! Callooh! Callay!"
He chortled in his joy

'Twas brillig, and the slithy toves
Did gyre and gimble in the wabe
All mimsy were the borogoves,
And the mome raths outgrabe

TEST 1

Hello
America!

Test Third floor fax machine JR

Welcome to

Windows® Fax and Scan

Create, scan, and fax your documents

FAX You can send and receive faxed documents on your computer without using a fax machine. You can also print, e-mail, or save a copy of your faxes.

To get started:

1. Connect a phone line to your computer.

   If your computer needs an external modem, connect the phone line to the modem, and then connect the modem to your computer.

2. On the toolbar, click **New Fax**.

3. Follow the instructions in the setup wizard to connect to a fax modem and then, when you're finished, create your fax.

To connect to a fax server instead of a modem, contact your system administrator. For more help with faxing, click the **Help** button on the toolbar.

SCAN After you add a scanner to your computer, you can preview documents or pictures before you scan them, and then adjust your scan settings for better results. You can also fax or e-mail scanned files to someone else.

To get started:

1. Connect your scanner to your computer by following the instructions that came with your scanner, and then place a document or picture on the scanner.

2. In Windows Fax and Scan, at the bottom of the left pane, click **Scan**.

3. On the toolbar, click **New Scan**.

4. Choose the scan settings you want to use, and you're ready to scan.

Use the options on the toolbar to fax, e-mail, print, or copy scans at any time. For more help with scanning, click the **Help** button on the toolbar.

cables to be soldered and a small PL-259 coax connector that mates with the SO-239 to secure the RG-6 type coaxial cable that emerged from the bottom of the box.

Before the plate to which the loop was attached, two strands of #26 AWG copper wire wire were fished through the entire loop with the ends brought out through the hole in the plate. Practically speaking, it's easier to push two pairs of wires through the hole - one going up each side of the loop - and then, through the top at the top, cross-connect them together by soldering and insulating the ends to form one two-turn loop inside the pipe. *NOTE: I happened to have #26 AWG on hand, but heavier*

Subject: Account Codes

Hi Terri,

I tried to collect the machine meter and accounting code meters off the two central office community copiers tonight In order for this to be done, I must do this after hours when no one is using the equipment Otherwise..we run the risk of the accounting code meters and machine meters not adding up Example I have to run two reports 1) accounting code meters and 2) machine meters If someone were to run a copy between the time is takes running these two reports on either machine the meters will not add up When I tried running the accounting codes meters off the equipment I noticed that the codes had already been zeroed out. If someone at the board office zeroes out the accounting codes, then our reports will not match unless the same time you run those reports you email me the total counters on the machine as well I am ok with doing either way 1) I run both reports for you or 2) you run both reports and just email me the total you wish for me to bill off these machines

Please note- because I pulled the meter tonight and I knew you want the meters to add up correctly, I have reset the accounting code meters back to zero again By doing this the next billing will allow for a reconciled report All the users had zero copies except for common core and they had ran 389 copies

Sincerely

Brad Blackman

1-855-330 123

- There is a large overhead from the number of bytes needed for the extension header (4 bytes the possible padding that is needed at the end of the extension to round up to a four byte boundary (up to 3 bytes). For many applications this overhead is unacceptable.

- Use of the header extension limits applications to a single redundancy encoding. Unless further structure is introduced into the extension. This would result in further overhead.

For these reasons the use of RTP header extension to hold redundant audio transmissions is discouraged.

The RTP profile for audio and video conferences [redacted] two possible schemes for assigning dynamic RTP payload types for redundant audio applications:

1. A dynamic encoding scheme may be defined, for each combination of primary/redundant payload types using the RTP dynamic payload type range.

2. A single fixed payload type may be defined to represent a packet with redundancy. This may then be assigned to either a static RTP payload type, or the payload type field may be combined dynamically.

It is possible to define a set of payload types that apply a pair-wise combination of primary and secondary encodings for each of the 96 dynamic payload types provided. This would be a slightly more than simple solution for packets with a single block of redundancy as the number of possible combinations is not too large however the need for multiple blocks of redundancy greatly increases the number of encoding combinations and makes this solution not viable.

A model of more or less the above solution could be to decide prior to the beginning of a conference on a set of 32 encoding combinations that will be used for the duration of the conference. All tools in the conference can be initialized with this working set of encoding combinations. Communication of the working set could be made through the use of an external out of band, negotiation. Setup is complicated as there were needs to be taken to elevate cases with identical perspectives. This scheme is more efficient as only one byte is used to identify combination of encodings.

MyFax does not "re-sell" fax numbers. Each user is assigned a dedicated fax number in their choice of area code. MyFax provides unlimited toll free customer support 24 hours a day, 7 days a week.

This fax was sent by MyFax, the fastest, most convenient way to send and receive faxes. Get your own fax number for free at www.myfax.com and start faxing in minutes.

AWESOME!

Please detail any skills you have acquired that you would be willing to share with HSSCG while volunteering. The more specific the better (painting, construction, legal, graphic design, fundraising, etc.)

Volunteers are encouraged to help at HSSCG as often as fits your schedule. However, we would like you to set a goal of at least two days per month for a couple of hours between 9:30-4:30 to remain an "active" volunteer. We especially need volunteers for Sundays through Thursdays. Volunteers are welcomed at the shelter 7 days a week, 365 days of the year.

This volunteer application is the first step towards becoming a volunteer for HSSCG. All volunteers must attend an orientation which includes an animal handling training session. Orientations will be held one Saturday a month. You will be notified once the date is set for the orientation and if you can't attend, you'll be notified of the next scheduled orientation. Please don't hesitate to email the Volunteer Coordinator if you have any questions.

Volunteers are **required** to purchase and wear a volunteer t-shirt. The cost is $11.00

QUEEN PALM CARE GUIDE

Easy as 1-2-3

Queen Palms are some of the most beautiful and most popular palms grown here in the desert. If given proper care, they will always be as green and full as when purchased.

1. WATERING

By far, water / soil drainage is the most important ingredient for the well being of Queen Palms here in the desert. Queen Palms are tropical type palms, native to warm wetter areas of the world. They can handle the extremes of our desert temperatures, but do need more water than nature provides. For more palms that don't appear healthy, lack of properly applied water combined with nutrient deficiencies is usually the cause. A good rule of thumb is that it's practically impossible to over water a Queen Palm, especially during the intense heart of summer months!

When applying water to plant is better! As a Queen Palm matures, it's roots spread wide - but not much deeper than 18 to 24 inches. So make sure that as your tree grows to apply the water wider every year. A good rule of thumb for this is to water an area at least 5 to 6 times as wide as the trunk diameter.

How often to water depends on many variables including current temperatures and conditions and recent rainfall (to name a few). To keep a good, happy level of moisture for Queen Palms, basic watering guidelines are as follows:

Season / Temp Range	Watering (per week)
Summer / Above 100°	4 to 5 times per week
Fall / 65° to 100°	2 to 3 times per week
Winter / Below 65°	1 to 2 times per week
Spring / 65° to 100°	2 to 3 times per week

NOTE: These are guidelines. Adjustments and watering levels should be made during high heat and drought conditions and may require two to three times per week. Less watering will be required during rainy periods. Heavy rains will provide for applied water.

2. FERTILIZING

Keeping Queen palms healthy has proven to be a big challenge for many years. Most fail for assuming fertilizers or soils that many time fertilizers to the soil. We've taken the guesswork out of feeding Queen Palms! Our Super Palm Juice® has all of the major & micro nutrients to keep palms green & healthy in an easy to use, liquid format that reaches the roots FAST!

Super Palm Juice is great for all varieties of palms and is an absolute must for Queen Palms!

3. TRIMMING

Only remove fronds that hang downward (below horizontal). Simply cut them about 2-3" from trunk, using a cut that is parallel to the trunk. During Summer months, it's common to get some brown tips. It's ok to just trim off the brown and leave the green portion of the frond. Trimming is usually only necessary once or twice a year.

Murphy applied for a post at a famous Irish firm based in Dublin. An American applied for the same job and since both applicants had similar qualifications they were asked to take a test by the Manager When the results were in amazingly both men had only one wrong answer

The manager went to Murphy and said, "Thank you for coming to the interview, but we've decided to give the American the job."

Murphy, "And why would you be doing that? We both got 19 questions correct. This being Ireland and me being Irish surely I should get the job "

Manager "We have made our decision not on the correct answers but on the question you missed "

Murphy "And just how would one incorrect answer be better than the other?"

Manager "Simple. On question number 7 the American wrote down I don't know "

You put down "Neither do I "

Po-Joke #24

A nurse is giving a young medical intern a tour of the hospital.
The intern approaches one bedridden patient and asks, "Why are you here?" The patient replies, "Wee sleekit cowerin' timorous beastie/O what a panic is in thy breastie."
The intern moves on to the next bed and asks the same question. "Why are you here?" The patient answers, "O my luv is like a red, red, rose that's newly sprung in June."
The intern moves on to a third bed and asks again. "Why are you here" to which the third patient replies, "The best laid plans of mice and men may often gang awry."
At this the intern turns to the nurse and asks "What ward is this anyway?" And the nurse answers "It's the Burns Unit."

TOWN OF LEXINGTON

COMMUNITY CHOICE ELECTRICITY AGGREGATION PROGRAM
NOTIFICATION LETTER

June 19, 2018

Dear Lexington Electricity Service Customer

I am writing with information about the supplier portion of your Eversource electric bill.

Currently, you are an Eversource Basic Service customer. This means Eversource is your electricity supplier (they buy electricity for you)

However, the Town of Lexington has launched a **Community Choice** electricity aggregation program. Under this program, Eversource will continue delivering your electricity, but now from the electricity supplier selected by the Town. Lexington has signed a contract with Agera Energy, which will be in effect until December 2018 meter reads. This change allows Lexington to **include 100% renewable energy in your electricity** at a price that is from than the current Eversource Basic Service price. (The Eversource residential Basic Service price will change in January 2019.)

As provided by state law, you will be automatically enrolled in Lexington's Community Choice program unless you choose not to participate.

- **If you participate**, Eversource will continue to deliver your electricity, fix power outages, and bill you, but you will receive your electricity supplier. You will see Agera Energy and the program price on the supplier portion of your Eversource electric bill. Eversource's delivery charges will be unaffected.
- **If you do not participate** Eversource will continue to be your electricity supplier and the supplier portion of your electric bill will remain on the Eversource Basic Service rate.

Program Benefits

100% renewable energy Lexington's Community Choice program supplies 100% renewable electricity to all program participants.

Choice You have three new alternatives: You will be automatically enrolled in the **100% Green** offering, which provides 100% renewable energy with at least 17% from renewable energy projects in New England. Alternatively, you may choose **New England Green**, which provides 100% renewable energy all from projects in New England. If you don't want 100% renewable energy, you may choose **Basic**. *(Details on the back.)*

Predictability Your electricity supply price will not change before your December 2018 meter read. There are no hidden costs.

Your Relationship with Eversource

- Your bill will continue to come from Eversource
- You will continue to call Eversource if your power goes out.
- Distribution, transmission, transition and customer charges will not be affected.

If you are eligible for a low-income delivery rate or fuel assistance, you will continue to receive those benefits as a participant in Lexington's Community Choice program.

Lexington's Community Choice Program

Your New Electricity Supply Price

10.449 ¢/kWh

This price will begin with your first meter read after enrollment. It will end with your December 2018 meter read. Compare to Eversource rates on the back. ▶

For More Information

Web masspowerchoice.com/lexington
Email lexington@masspowerchoice.com
Phone 1-844-379-9935

Don't Want to Participate?

You don't have to. There is no penalty or fee to opt out of the program, and you may opt out at any time.

If you choose not to participate, you will remain an Eversource Basic Service customer.

To opt out before being enrolled, do one of the following before **July 23, 2018:**

- ▶ Sign & return the enclosed postcard (postmarked no later than **July 23, 2018**), mail Agera Energy at 1-855-975-2788, or opt out online at **masspowerchoice.com/lexington**

To opt out in the future, do one of the following at any time:

- ▶ Call Agera Energy at 1-855-975-2788 or opt out online at masspowerchoice.com/lexington

Free Things to Do in Venice

It doesn't matter how big your travel budget is – if you're anything like me, you're still going to be looking for travel deals everywhere you go. Unfortunately, a city like Venice (which knows it's so unique that people will make a point to visit almost regardless of the price) has a reputation for not treating serious budget travelers all that well. It is an expensive city to stay in, and even a bad meal in Venice can cost you what feels like a fortune. So here is a list of some of the **free things to do in Venice** – as well as some of the almost free (i.e. cheap) things to do in Venice for when you have a few extra euro to spend.

Always Free Venice

The things on this list won't cost you a cent – they're free all year-round.

- **Getting Lost in Venice** – If you do nothing else in Venice – and even if you have unlimited funds, your time is best spent wandering the city and getting thoroughly and blissfully lost. And this never costs you anything but time.
- **St. Mark's Basilica** – Aside from just wandering through Venice, my favorite "sight" is this stunning Byzantine basilica. Though a few of the tiny museums inside the church have an entry fee, the main part of the church is completely free. You can even reserve an entry time bypassing the line, for free!

Affiliate Information Sharing Notice

For Individuals Opening Business Accounts

Bank of America is made up of a number of financial account provider companies and non-financial companies, all working together to serve you. One of our most important goals is to make it easier for you to manage your money by offering you a wide selection of services. To better this goal, we may share information about your accounts with our affiliated companies to better meet your financial needs and manage our business and risks.

The individual information we may share with Bank of America is categorized in the following six ways:

A. Identification Information — Information that identifies you such as name, address, telephone number and Social Security number.

B. Application Information — Information you provide to us on applications and through other means that will help us determine if you are eligible for products you request. Examples include personal assets, income and debt.

C. Transaction and Experience Information — Information about transactions and account experience including information about our communications with you. Examples include account balances, payment history, account usage, your inquiries and our responses.

D. Consumer Report Information — Information from a consumer report. Examples include your personal credit score and credit history.

E. Information from Outside Sources — Information from outside sources regarding employment, credit and other relationships that will help us determine if you are eligible for products you request. Examples include employment history, loan balances, credit card balances, property insurance coverage and other verifications.

F. Other General Information — Information from outside sources, such as word from public records, that is not accessed or used for the purpose of determining eligibility for a product or service.

As required by the USA PATRIOT Act, we also collect information and take actions necessary to verify your identification.

If you do not want us to share your individual application information, consumer report information or information from outside sources among our affiliated companies, let us know by using one of the following methods:

1. Visit us online at www.bankofamerica.com
   (Select *Privacy & Security*, next select *Set Your Privacy Preferences*)
2. Talk to an associate at a nearby banking center or to your client manager
3. Call us toll-free at 1-888-341-5000

Please note that the request will apply to application information, consumer report information and information from outside sources only. Through the normal course of daily business, including servicing your accounts and better serving your financial needs, we will continue to share identification information, transaction and experience information and other general information among our affiliated companies. You may have other privacy protections under state laws, such as those in Vermont and California. To the extent these such laws apply, we will comply with them in regards to our information practices.

AUTHORIZATION FOR CREMATION AND DISPOSITION

MARIANNE CURRAN — Dec 03, 2013

(Name of Deceased) — (Date of Death)

3. I/We acknowledge that neither the Funeral Home nor the Crematory is responsible for removing any item of value (such as jewelry) from the remains prior to the cremation process and I/We agree to hold harmless Funeral Home and Crematory from any liability for the destruction or loss of any such item.

4. I/We understand that certain items, including, but not limited to, body prostheses, dentures, dental bridgework, dental fillings, jewelry and other personal articles accompanying the remains of the Deceased, may be destroyed during the cremation process. I/We authorize that if any items other than the cremated remains of the Deceased are recovered from the cremation chamber, they may be separated from the cremated remains of the Deceased and disposed of by the Crematory. I/We further hereby authorize the Crematory to separate and remove from the cremation chamber all noncombustible materials, including but not limited to, hinges, latches, nails, jewelry and precious metals, and to dispose of such materials.

5. Following cremation, the cremated remains of the Deceased, consisting primarily of bone fragments, will be mechanically pulverized to an unidentifiable consistency prior to placement in an urn or other container.

6. In the event the urn or container is insufficient to accommodate all of the cremated remains of the Deceased, any excess cremated remains will be placed in a secondary container and returned to the person named, together with the primary urn or container.

7. I/We understand and acknowledge that, even with the exercise of reasonable care and the use of the Crematory's best efforts, it is not possible to recover all particles of the cremated remains of the Deceased, and that some particles may inadvertently become commingled with particles of other cremated remains remaining in the cremation chamber and/or other devices used to process the cremated remains. I/We hereby authorize the Crematory to dispose of any such residual particles in any lawful manner it deems appropriate.

8. In the event the cremated remains of the Deceased remain unclaimed for a period of 30 days after the cremated remains are available to be delivered to the person designated on the Authorization for Return of Cremated Remains form, the Funeral Home shall give written notice by Certified Mail, Return Receipt to the person designated on the Authorization for Return of Cremated Remains form. I/We agree that in the event the cremated remains of the Deceased remain unclaimed for a period of 30 days after the date such written notification is mailed, the Funeral Home is authorized and directed to mail the unclaimed cremated remains of the Deceased by Registered Mail via United States Postal Service to the individual designated on the Authorization for Return of Cremated Remains form.

9. I/We agree to indemnify, defend and hold the Crematory, Funeral Home, their affiliates, agents, employees and assigns, harmless from any and all loss, damages, liability or causes of action (including attorneys' fees and expenses of litigation) in connection with the cremation and disposition of the cremated remains of the Deceased, or occasioned [illegible] the remains of the Deceased, including [illegible] any implanted mechanical or explosive devices, or their possession of, or [illegible] for the disposition of such remains.

10. Except as set forth in this Authorization, no warranties, expressed or implied, are made by the Funeral Home, Crematory, or any of their respective affiliates, agents, or employees.
